Letters from Prison Antonio Gramsci, 1994 Hailed by Terry Eagleton in the Guardian as definitive, this is the only complete and authoritative edition of Antonio Gramsci's deeply personal and vivid prison letters.

Someday This Pain Will Be Useful to You Peter Cameron, 2009-04-28 Someday This Pain Will Be Useful to You is the story of James Sveck, a sophisticated, vulnerable young man with a deep appreciation for the world and no idea how to live in it. James is eighteen, the child of divorced parents living in Manhattan. Articulate, sensitive, and cynical, he rejects all of the assumptions that govern the adult world around him—including the expectation that he will go to college in the fall. He would prefer to move to an old house in a small town somewhere in the Midwest. Someday This Pain Will Be Useful to You takes place over a few broiling days in the summer of 2003 as James confides in his sympathetic grandmother, stymies his canny therapist, deplores his pretentious sister, and devises a fake online identity in order to pursue his crush on a much older coworker. Nothing turns out how he'd expected. Possibly one of the all-time great New York books, not to mention an archly comic gem (Peter Gadol, LA Weekly), Someday This Pain Will Be Useful to You is the insightful, powerfully moving story of a young man questioning his times, his family, his world, and himself.

The Order of Time Carlo Rovelli, 2019-12-10 One of TIME's Ten Best Nonfiction Books of the Decade Meet the new Stephen Hawking . . . The Order of Time is a dazzling book. --The Sunday Times From the bestselling author of Seven Brief Lessons on Physics, Reality Is Not What It Seems, Helgoland, and Anaximander comes a concise, elegant exploration of time. Why do we remember the past and not the future? What does it mean for time to flow? Do we exist in time or does time exist in us? In lyric, accessible prose, Carlo Rovelli invites us to consider questions about the nature of time that continue to puzzle physicists and philosophers alike. For most readers this is unfamiliar terrain. We all experience time, but the more scientists learn about it, the more mysterious it remains. We think of it as uniform and universal, moving steadily from past to future, measured by clocks. Rovelli tears down these assumptions one by one, revealing a strange universe where at the most fundamental level time disappears. He explains how the theory of quantum gravity attempts to understand and give meaning to the resulting extreme landscape of this timeless world. Weaving together ideas from philosophy, science and literature, he suggests that our perception of the flow of time depends on our perspective, better understood starting from the structure of our brain and emotions than from the physical universe. Already a bestseller in Italy, and written with the poetic vitality that

made *Seven Brief Lessons on Physics* so appealing, *The Order of Time* offers a profoundly intelligent, culturally rich, novel appreciation of the mysteries of time.

History of the Italian Agricultural Landscape Emilio Sereni, 2014-07-14 Emilio Sereni's classic work is now available in an English language edition. *History of the Italian Agricultural Landscape* is a synthesis of the agricultural history of Italy in its economic, social, and ecological context, from antiquity to the mid-twentieth century. From his perspective in the Italian tradition of cultural Marxism, Sereni guides the reader through the millennial changes that have affected the agriculture and ecology of the regions of Italy, as well as through the successes and failures of farmers and technicians in antiquity, the middle ages, the Renaissance, and the Industrial Revolution. In this sweeping historical survey, he describes attempts by successive generations to adapt Italy's natural environment for the purposes of agriculture and to respond to its changing ecological problems. *History of the Italian Agricultural Landscape* first appeared in 1961. At the time of its publication it was a pathbreaking work, parallel in its importance for Italy to Marc Bloc's masterwork of 1931, *The Original Characteristics of French Rural History*. Sereni invented the concept of the historical agricultural landscape: an interdisciplinary characterization of rural life involving economic and social history, linguistics, archeology, art history, and ecological studies. Originally published in 1997. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Experiences in Translation Umberto Eco, 2008-01-01 In this book Umberto Eco argues that translation is not about comparing two languages, but about the interpretation of a text in two different languages, thus involving a shift between cultures. An author whose works have appeared in many languages, Eco is also the translator of Gérard de Nerval's *Sylvie* and Raymond Queneau's *Exercices de style* from French into Italian. In *Experiences in Translation* he draws on his substantial practical experience to identify and discuss some central problems of translation. As he convincingly demonstrates, a translation can express an evident deep sense of a text even when violating both lexical and referential faithfulness. Depicting translation as a semiotic task, he uses a wide range of source materials as illustration: the translations of his own and other novels, translations of the dialogue of American films into Italian, and various versions of the Bible. In the second part of his study he deals with translation theories proposed by Jakobson, Steiner, Peirce, and others. Overall, Eco identifies the different types of interpretive acts that count as translation. An enticing new typology emerges, based on his insistence on a common-sense approach and the necessity of taking a critical stance.

Giacomo Barri «francese» e il suo «Viaggio pittoresco d'Italia». Gli anni a Venezia di un peintre-graveur scrittore d'arte

nel Seicento Angelo Maria Monaco, 2014 Jacques de Pierre de Bar alias Giacomo Barri (ca. 1636-ca. 1690), giunto a Venezia da Lione all'età di quattro anni, fu un esponente significativo della scena artistica lagunare del Seicento maturo. Pittore copista, incisore d'après e scrittore d'arte, pubblicò nel 1671 il *Viaggio pittoresco d'Italia*: la prima guida tascabile alla pittura dei grandi maestri italiani, che fu presto tradotta a Londra nel 1679, a cura dell'incisore William Lodge di Leeds. Il lavoro è articolato in due sezioni. La prima è strutturata come una monografia d'artista con la ricostruzione delle vicende biografiche di Barri, della rete di committenze e del catalogo delle opere. La seconda parte propone un'edizione critica e commentata dell'ormai rarissimo *Viaggio pittoresco* e della sua traduzione inglese *The Painters Voyage*. L'innovativa creazione editoriale di Barri, già segnalata nella poderosa *Kunstliteratur* di Julius von Schlosser come il primo vero e proprio episodio della letteratura dei Ciceroni, ma da allora rimasta inesplorata, divenne un utile strumento di viaggio per gli amatori e curiosi d'arte, così come, in traduzione, la prima guida tascabile per gli aristocratici europei invaghiti dell'Italia e della sua pittura, agli esordi del Grand Tour.

Variational Methods in Image Segmentation Jean-Michel Morel, Sergio Solimini, 2012-12-06 This book contains both a synthesis and mathematical analysis of a wide set of algorithms and theories whose aim is the automatic segmentation of digital images as well as the understanding of visual perception. A common formalism for these theories and algorithms is obtained in a variational form. Thank to this formalization, mathematical questions about the soundness of algorithms can be raised and answered. Perception theory has to deal with the complex interaction between regions and edges (or boundaries) in an image: in the variational segmentation energies, edge terms compete with region terms in a way which is supposed to impose regularity on both regions and boundaries. This fact was an experimental guess in perception phenomenology and computer vision until it was proposed as a mathematical conjecture by Mumford and Shah. The third part of the book presents a unified presentation of the evidences in favour of the conjecture. It is proved that the competition of one-dimensional and two-dimensional energy terms in a variational formulation cannot create fractal-like behaviour for the edges. The proof of regularity for the edges of a segmentation constantly involves concepts from geometric measure theory, which proves to be central in image processing theory. The second part of the book provides a fast and self-contained presentation of the classical theory of rectifiable sets (the edges) and unrectifiable sets (fractals).

The Matriarch Witi Ihimaera, 2013-07-24 In keeping with his commitment to revisit his first five pieces of fiction, Witi Ihimaera has reworked the original text of this much-loved classic. The matriarch is a woman of intelligence, wit, beauty and

ruthlessness, and has become a mythical figure through her fight to repossess the land and sustain her people against the ravages wrought by the Pakeha. Priestess of the Ringatu faith, she has been virtually a law unto herself. In his search for the truth behind the legends surrounding the matriarch, his grandmother, Tama Mahana delves deeper and deeper into Maori history and lore to understand the mysterious sources of her power and ambition. Witi Ihimaera's prose is at turns lyrical and spare, sensuous and savage. Weaving fact with fiction, this remarkable odyssey into New Zealand history is a novel of stunning imaginative power. Also available as an eBook Winner of the Wattie Book of the Year, 1986 Runner-up for the Commonwealth Writers' Prize, 1987 'Witi Ihimaera's uncompromising masterwork . . . A profound and spellbinding character study' - New Zealand Herald

The Question of Hu Jonathan D. Spence, 2011-05-04 This lively and elegant book by the acclaimed historian Jonathan D. Spence reconstructs an extraordinary episode in the early intercourse between Europe and China. It is the story of John Hu, a lowly but devout Chinese Catholic, who in 1722 accompanied a Jesuit missionary on a journey to France--a journey that ended with Hu's confinement in a lunatic asylum. At once a triumph of historical detective work and a gripping narrative, *The Question of Hu* deftly probes the collision of two cultures, with their different definitions of faith, madness, and moral obligation.

The City of Your Final Destination Peter Cameron, 2010-05-11 *The City of Your Final Destination* is a touching, clever and wonderfully comic novel from Peter Cameron, now a major motion picture starring Anthony Hopkins, Laura Linney, and Charlotte Gainsbourg. Omar Razaghi posts a letter on September 13, 1995 that will change the course of his life forever. A doctoral student at the University of Kansas, he writes to the estate of the Latin American author Jules Gund, requesting permission to write Gund's authorized biography. His request is refused, but Omar has already accepted a fellowship from the university, and with his girlfriend's vehement encouragement, he goes in person to Uruguay to petition to Gund's three executors. Although Caroline Gund, Jules' wife, and Arden Langdon, Jules' mistress and mother of his child, are initially opposed to the idea of a biography, Omar has the support of Adam, Jules' older brother, and hopes to be able to persuade the two women. Omar's unexpected arrival in Uruguay reverberates through this odd and isolated little family group, and his stay in the languid, dreamy Ochos Rios makes him question his former life in Kansas, and his ability-even his desire-to write an authorized life.

A raw, powerful, moving tale about a girl attempting to deal with the aftermath of a sexual attack. My name is Stacey Woods and I was raped. Stacey is the victim of a terrible sexual attack. She does not feel able to go to the police, or talk about it to anybody other than her best friend, Patrice. Patrice, outraged, when she cannot persuade her to go

The Cinema of Tarkovsky Nariman Skakov, 2012-01-30 The phenomenon of time was a central preoccupation of Tarkovsky throughout his career. His films present visions of time by temporal means - that is, in time. Tarkovsky does not represent time through coherent argument, Nariman Skakov proposes, rather he presents it and the viewer experiences the argument. This book explores the phenomenon of spatio-temporal lapse in Tarkovsky's cinema - from *Ivan's Childhood* (1962) to *Sacrifice* (1986). Dreams, visions, mirages, memories, revelations, reveries and delusions are phenomena which present alternative spatio-temporal patterns; they disrupt the linear progression of events and create narrative discontinuity. Each chapter is dedicated to the discussion of one of Tarkovsky's seven feature films and in each, one of these phenomena functions as a refrain. Skakov discusses the influence of the flow of and lapses in space and time on the viewer's perception of the Tarkovskian cinematic universe. He opens and closes his original and fascinating book on Tarkovsky's cinema by focusing on the phenomenon of time that is discussed extensively by the filmmaker in his main theoretical treatise *Sculpting in Time*, as well as in a number of interviews and public lectures.

Andrei Tarkovsky's Poetics of Cinema Thomas Redwood, 2010-05-11 "If you look for a meaning, you'll miss everything that happens." Almost twenty-five years after the death of Andrei Tarkovsky, the mystery of his films remains alive and well. Recent years have witnessed an ever-increasing number of film theorists, critics and philosophers taking up the challenge to decipher what these films actually mean. But what do these films actually show us? In this study Thomas Redwood undertakes a close formal analysis of Tarkovsky's later films. Charting the stylistic and narrative innovations in *Mirror*, *Stalker*, *Nostalghia* and *The Sacrifice*, Redwood succeeds in shedding new light on these celebrated but often misunderstood masterpieces of narrative film. Tarkovsky is revealed here both as a cinematic thinker and as an artistic practitioner, a filmmaker of immense poetic significance for the history of cinema.
