The Tudor Occupation of Boulogne Neil Murphy, 2019-02-07 In 1544, Henry VIII led the largest army then ever raised by an English monarch to invade France. This book investigates the consequences of this action by examining the devastating impact of warfare on the native population, the methods the English used to impose their rule on the region (from the use of cartography to the construction of fortifications) and the development of English colonial rule in France. As Murphy explores the significance of this major financial and military commitment by the Tudor monarchy, he situates the developments within the wider context of English actions in Ireland and Scotland during the mid-sixteenth century. Rather than consider the plantations established in the mid-sixteenth century Ireland as the 'laboratory' for a new form of empire, this book argues that they should be viewed along with the Boulogne venture as the English crown's final attempt to establish colonies through the use of state resources alone.

Tartine Bread Chad Robertson, 2013-10-29 *The Tartine Way* — Not all bread is created equal *The Bread Book* ...the most beautiful bread book yet published... -- *The New York Times*, December 7, 2010 *Tartine* — A bread bible for the home or professional bread-maker, this is the book! 101 Champagnes and other Sparkling Wines Davy Zyw, 2018-10-18 The definitive guide to champagne and other sparkling wines. Champagne is delicious; we love its flavour, we love its fizz. Champagne's association with success, partying and fun are as ingrained in the wine as the bubbles themselves. As the godfather of champagne, Dom Pérignon, famously declared: 'Brothers, I'm drinking stars'. But there's more to fizz than just champagne. Prosecco's meteoric rise in popularity has opened up our taste buds to other sparkling wines: from the glacial hills of Treviso, the lava slopes of Mount Etna, rural Brazil to the more genteel South Downs of England, the choice is vast. There has never been a better time to enjoy a glass of bubbly. Navigation is important as the new and exotic vintages aren't all wonderful, and this is where Davy Zyw can help. As one of the country's leading experts in sparkling wine, Davy explains why each of the 101 entries has made the cut. This is the ultimate ice-bucket list for fizz fans, and every bottle in this book will knock your socks off.

The Portuguese Escudo Monetary Zone Maria Eugénia Mata, 2020-06-12 This monograph examines the failure of the Portuguese Escudo Monetary Zone and the birth of new monetary and financial systems in Portuguese-speaking African countries. Examining colonial and post-colonial times, Mata analyses the decision to build a Portuguese monetary area in the early 1960s and mid-1970s when the decolonisation process was peaking. This book offers some important lessons regarding the functioning and dismantling of monetary areas, and on the importance of central-banks' co-operation.

Decentralization of the Socialist State Richard Miller Bird, Robert D. Ebel, Christine Wallich, 1995-01-01 World Bank Discussion Paper No. 271. This study incorporates data from comparable surveys across five African countries--Ghana, Malawi, Mali, Senegal, and Tanzania--to analyze how small and micro enterprises have been positively and negatively affected by policy liberalization schemes. Some grow rapidly by adapting their products, while others stagnate because of import competition and increased self-employment. Comparisons were made between small firms, with 6 to 49 workers, and microenterprises, with fewer than 6. The study suggests a two-pronged strategy: (1) to facilitate widespread participation in microenterprises, broad measures are needed to lower the costs of entry, generate demand for their goods and services, raise the educational level and incomes of the poor, and encourage informal financial institutions; (2) to stimulate growth of potentially dynamic enterprises, well-targeted measures may be appropriate to lower the costs of entry, increase access to credit, and provide demand-driven business services. Also available in French (ISBN 0-8213-3907-0) Stock No. 13907.

Garum and Salsamenta Curtis, 2018-07-17 Fermented fish products fulfilled multiple functions in Graeco-Roman society. They were a source of nutrition, a medicine with both dietetic and therapeutic value, and a commodity of trade. Their production and commerce provided employment, even wealth, for many individuals in the western and eastern provinces of the Roman Empire. The work defines ancient salt-fish products and clarifies their relationship with modern counterparts. Following discussion of the perceived and actual utility of these products in human and veterinary medicine, the author, employing literary, archaeological, epigraphical, papyrological, and numismatic evidence, provides a province-by-province survey of the areas which produced and exported them. The book closes with a discussion of the social status of those involved in their manufacture and trade, the methods used to market them and their fate in the post-classical period. This study explores an important facet of the Roman economy having continuity with the modern world.

The Origins of English Financial Markets Anne L. Murphy, 2012-08-09 The late seventeenth century was a crucial period in English financial history. A host of joint-stock companies emerged offering the opportunity for investment in projects ranging from the manufacture of paper to the search for sunken treasure. Driven by the demands of the Nine Years' War, the state also employed innovative tactics to attract money, its most famous scheme being the incorporation of the Bank of England. This book provides a comprehensive study of the choices and actions of the investors who enthusiastically embraced London's new financial market. It highlights the interactions between public and private finance, looks at how information circulated around the market and was used by speculators and investors, and documents the establishment of the institutions - the Bank of England, the national debt and an active secondary market in that debt - on which England's financial system was built.

Flowers Cédric Grolet, 2022-05-17 The latest French patisserie cookbook from award-winning French pastry chef Cédric

Grolet After the success of his books *Fruit: The Art of Pastry* and *Opera Pâtisserie*, French pastry sensation Cédric Grolet has brought out a new book of haute-cuisine pastry entirely devoted to flowers. A bouquet of flowers is traditionally presented as a gift. Through this book, the chef wanted to give an extra dimension to this gift by making it edible. Playing with colors, shapes, and ingredients, the chef finds flowers are an infinite source of inspiration. He combines gourmet recipes with the artistry of piping to create original cakes and tarts in the shape of flowers. The recipes are simple and can be made with minimal equipment--a pastry bag and tip is sufficient. All that is required is patience and skill. Guided by illustrated, step-by-step directions, you will be able to express your own creativity brought to life through the ingredients, whether a Chantilly cream or a ganache. By piping uniform curves, you will be able to shape a flower, one that is different each time. Discover more than 80 recipes for cakes, tarts, and entremets, presented by season, in a wide range of edible flowers. The rest is up to you!

Dice, Cards, Wheels Thomas M. Kavanagh, 2013-03-25 Gambling has been a practice central to many cultures throughout history. In *Dice, Cards, Wheels*, Thomas M. Kavanagh scrutinizes the changing face of the gambler in France over a period of eight centuries, using gambling and its representations in literature as a lens through which to observe French culture. Kavanagh argues that the way people gamble tells us something otherwise unrecognized about the values, conflicts, and cultures that define a period or class. To gamble is to enter a world traced out by the rules and protocols of the game the gambler plays. That world may be an alternative to the established order, but the shape and structure of the game reveal indirectly hidden tensions, fears, and prohibitions. Drawing on literature from the Middle Ages to the present, Kavanagh reconstructs the figure of the gambler and his evolving personae. He examines, among other examples, Bodel's dicing in a twelfth-century tavern for the conversion of the Muslim world; Pascal's post-Reformation redefinition of salvation as the gambler's prize; the aristocratic libertine's celebration of the bluff; and Balzac's, Barbey d'Aurevilly's, and Bourget's nineteenth-century revisions of the gambler. *Dice, Cards, Wheels* embraces the tremendous breadth of French history and emerges as a broad-ranging study of the different forms of gambling, from the dice games of the Middle Ages to the digital slot machines of the twenty-first century, and what those games tell us about French culture and history.

He is the author of a cuisine filled with fresh emotions. Each of his dishes is a discovery and simplicity itself. It is a happy and inventive cuisine. It is a cuisine that owes more to love than to science, a universe filled with wonder. Ginette and Michel gambled on the sky and the high land. Their son Sébastien and his wife, Véronique, live this adventure together with them. It is a great team. To live and work at Puech du Suquet, they chose a bold architecture that suits the high plain of Aubrac, in the heart of the land where Michel Bras sees himself.
