The Unchosen Ones R. J. Kern, In 2016, award-winning Minnesota-based photographer R. J. Kern made portraits of youth contestants at Minnesota county fairs. Each participant—some as young as four years old—had spent a year raising an animal, which they had then entered into a 4-H livestock competition. None of the youths who sat for him had succeeded in winning an award, despite the obvious care they had given to their animals. The Unchosen Ones depicts the bloom of youth and the mettle of the kids who grow up on farms, reminding us how resilient children can be when confronted with life's inevitable disappointments. The formal qualities of the lighting and setting endow these young people with a gravitas beyond their years, revealing self-directed dedication in some, and in others, perhaps, the pressures of traditions imposed upon them. Kern's beautiful portraits capture a particular America, a rural world, and a time in life when the layered emotions of youth are laid bare. Four years later, in 2020, Kern returned to photograph his young subjects. The most recent photographs show how the children have grown into adolescence or young adulthood: some of them have continued to pursue animal husbandry, while others have developed other interests. It is likely that some of these kids will not choose to continue running their family farms—an unpredictable and demanding way to make a living. These diptychs are punctuated by lush landscapes of the farms that are their homes. As Kern made the second group of photographs, he asked his young subjects what they had carried forward from their previous experience. What were their thoughts, their dreams, and their goals for the future? How would they fit into the future of agricultural America?

A Theory of African Constitutionalism Berihun Adugna Gebeye, 2021-07-08 A Theory of African Constitutionalism asks and seeks to answer why we need a new theoretical framework for African constitutionalism and how this could offer us better theoretical and practical tools with which to understand, improve, and assess African constitutionalism on its own

terms. By locating constitutional studies in Africa within the experiences, interactions, and contestations of power and governance beginning in precolonial times, the book presents the development and transformation of African constitutional systems across time and place, along with the attendant constitutional designs and practices ranging from the nature and operation of the African state to its vertical and horizontal government structures, to its constitutional rights regime. This title offers both a theoretically and comparatively rich, historically and contextually informed, and temporally and spatially extensive account of the nature, travails, and incremental successes of African constitutionalism with detailed case studies from Nigeria, Ethiopia, and South Africa. *A Theory of African Constitutionalism* provides scholars, policymakers, governments, and constitution builders in Africa and beyond with new insights for reimagining the purpose, substance, and scope of constitutions and constitutionalism.

Transforming the Workforce for Children Birth Through Age 8 National Research Council, Institute of Medicine, Board on Children, Youth, and Families, Committee on the Science of Children Birth to Age 8: Deepening and Broadening the Foundation for Success, 2015-07-23 Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. *Transforming the Workforce for Children Birth Through Age 8* explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. *Transforming the Workforce for Children Birth Through Age 8* offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.

An Introduction to Service Design Lara Penin,2018-05-17 A comprehensive introduction to designing services according to the needs of the customer or participants, this book addresses a new and emerging field of design and the disciplines that feed and result from it. Despite its intrinsic multidisciplinary nature, service design is a new specialization of design in its own right. Responding to the challenges of and providing holistic, creative and innovative solutions to increasingly complex contemporary societies, service design now represents an integrative and advanced culture of design. All over the world new design studios are defining their practice as service design while long established design and innovation consultancies are increasingly embracing service design as a key capacity within their offering. Divided into two parts to allow for specific reader requirements, Service Design starts by focusing on main service design concepts and critical aspects. Part II offers a methodological overview and practical tools for the service design learner, and highlights fundamental capacities the service design student must master. Combined with a number of interviews and case studies from leading service designers, this is a comprehensive, informative exploration of this exciting new area of design.

Unbroken Laura Hillenbrand, 2014-07-29 #1 NEW YORK TIMES BESTSELLER • NOW A MAJOR MOTION PICTURE • Look for special features inside. Join the Random House Reader's Circle for author chats and more. In boyhood, Louis Zamperini was an incorrigible delinquent. As a teenager, he channeled his defiance into running, discovering a prodigious talent that had carried him to the Berlin Olympics. But when World War II began, the athlete became an airman, embarking on a journey that led to a doomed flight on a May afternoon in 1943. When his Army Air Forces bomber crashed into the Pacific Ocean, against all odds, Zamperini survived, adrift on a foundering life raft. Ahead of Zamperini lay thousands of miles of open ocean, leaping sharks, thirst and starvation, enemy aircraft, and, beyond, a trial even greater. Driven to the limits of endurance, Zamperini would answer desperation with ingenuity; suffering with hope, resolve, and humor; brutality with rebellion. His fate, whether triumph or tragedy, would be suspended on the fraying wire of his will. Appearing in paperback for the first time—with twenty arresting new photos and an extensive Q&A with the author—*Unbroken* is an unforgettable testament to the resilience of the human mind, body, and spirit, brought vividly to life by Seabiscuit author Laura Hillenbrand. Hailed as the top nonfiction book of the year by Time magazine • Winner of the Los Angeles Times Book Prize for biography and the Indies Choice Adult Nonfiction Book of the Year award “Extraordinarily moving . . . a powerfully drawn survival epic.”—The Wall Street Journal “[A] one-in-a-billion story . . . designed to wrench from self-respecting critics all the blurby adjectives we normally try to avoid: It is amazing, unforgettable, gripping, harrowing, chilling, and inspiring.”—New York “Staggering . . . mesmerizing . . . Hillenbrand’s writing is so ferociously cinematic, the events she describes so incredible, you don’t dare take your eyes off the page.”—People “A meticulous, soaring and beautifully written account of an extraordinary life.”—The Washington Post “Ambitious and powerful . . . a startling narrative and an inspirational book.”—The New York Times Book Review “Magnificent . . . incredible . . . [Hillenbrand] has crafted another masterful blend of sports, history and overcoming terrific odds; this is biography taken to the nth degree, a chronicle of a remarkable life lived through extraordinary times.”—The Dallas Morning News “An astonishing testament to the superhuman power of tenacity.”—Entertainment Weekly “A tale of triumph and redemption . . . astonishingly detailed.”—O: The Oprah Magazine “[A] masterfully told true story . . . nothing less than a marvel.”—Washingtonian “[Hillenbrand tells this] story with cool elegance but at a thrilling sprinter’s pace.”—Time “Hillenbrand [is] one of our best writers of narrative history. You don’t have to be a sports fan or a war-history buff to devour this book—you just have to love great storytelling.”—Rebecca Skloot, author of *The Immortal Life of Henrietta Lacks*

Will I Ever be Good Enough? Karyl McBride, 2008 The first book specifically for daughters suffering from the emotional abuse of selfish, self-involved mothers, *Will I Ever Be Good Enough?* provides the expert assistance you need in order to overcome this debilitating history and reclaim your life for yourself. Drawing on over two decades of experience as a therapist specializing in women's psychology and health, psychotherapist Dr. Karyl McBride helps you recognize the widespread effects of this maternal emotional abuse and guides you as you create an individualized program for self-protection, resolution, and complete recovery. An estimated 1.5 million American women have narcissistic personality disorder, which makes them so insecure and overbearing, insensitive and domineering that they can psychologically damage their daughters for life. Daughters of narcissistic mothers learn that maternal love is not unconditional, and that it is given only when they behave in accordance with their mothers' often unreasonable expectations and whims. As adults, these daughters consequently have difficulty overcoming their insecurities and feelings of inadequacy, disappointment, sadness, and emotional emptiness. They may also have a terrible fear of abandonment that leads them to form unhealthy love relationships, as well as a tendency to perfectionism and unrelenting self-criticism, or to self-sabotage and frustration. Herself the recovering daughter of a narcissistic mother, Dr. McBride includes her personal struggle, which adds a profound level of authority to her work, along with the perspectives of the hundreds of suffering daughters she's interviewed over the years.

Their stories of how maternal abuse has manifested in their lives -- as well as how they have successfully overcome its effects -- show you that you're not alone and that you can take back your life and have the control you want. Dr. McBride's step-by-step program will enable you to: (1) Recognize your own experience with maternal narcissism and its effects on all aspects of your life (2) Discover how you have internalized verbal and nonverbal messages from your mother and how these have translated into a strong desire to overachieve or a tendency to self-sabotage (3) Construct a step-by-step program to reclaim your life and enhance your sense of self, a process that includes creating a psychological separation from your mother and breaking the legacy of abuse. You will also learn how not to repeat your mother's mistakes with your own daughter. Warm and sympathetic, filled with the examples of women who have established healthy boundaries with their hurtful mothers, *Will I Ever Be Good Enough?* encourages and inspires you as it aids your recovery.

Teach Like Finland: 33 Simple Strategies for Joyful Classrooms Timothy D. Walker, 2017-04-18 The best-selling book of easy-to-implement classroom lessons from the world's premier educational system—now available in paperback. Finland shocked the world when its fifteen-year-olds scored highest on the first Programme for International Student Assessment (PISA), a set of tests evaluating critical-thinking skills in math, science, and reading. That was in 2001; even today, this tiny Nordic nation continues to amaze. How does Finnish education—with short school days, light homework loads, and little standardized testing—produce students who match the PISA scores of other nations with more traditional “work ethic” standards? When Timothy Walker started teaching fifth graders at a Helsinki public school, he began a search for the secrets behind the successes of Finland's education system. Highlighting specific strategies that support joyful K-12 classrooms and can be integrated with U.S. educational standards, this book, available in paperback for the first time, gathers what he learned and shows how any teacher can implement many of Finland's best practices. A new foreword by the author addresses the urgent questions of teaching, and living, in these pandemic times.

Disco Bill Bernstein, 2016-11-22 The deluxe edition of *Disco: The Bill Bernstein Photographs* is limited to 100 signed and numbered copies. This collector's item includes a signed photograph exclusive to this edition and is presented in a bespoke slipcase. Containing many previously unpublished photographs, *Disco* takes the viewer on an access-all-areas tour of late-'70s New York nightlife. Who were these people of the night...? It was the Posers. The Watchers. The Posers watching other Posers watching the Watchers, watching the Dancers, watching themselves. Bernstein's eye was drawn to the characters that lived for the night, rather than the celebrities, the unknown men and women who were transformed by the nightclub haze, and this is one reason his photographs from this time feel so authentic and immersive.
