Enough to Make You Sick... Jerry A. Grunor,2009 ● Are there maggots in your mushrooms? ● Is your drywall reeking of sulfur and turning your silver black? ● What are the secrets that restaurants don't want you to know? ● What's worse...tainted or counterfeit products? ● Has China turned a blind eye or tried to cover up? ● What is the price to pay for food safety? ● Is it time to ban all imports from China? While the Chinese knowingly and intentionally export inferior products and dangerous toys, food, prescriptions and any type of goods to America, we keep buying them and putting our lives in danger. There is enough going on to make you sick, as most imports are not inspected! Even Wal-Mart cracked down on Chinese suppliers. After years of F.D.A. and congressional investigations, testimony and posturing, are we any safer? Basically, the government has failed to improve the safety of products – the cheapest stuff is the riskiest! Simply look on the bottom of every product you buy and if it says 'MADE IN CHINA' or 'PRC' just choose another product or none at all. Is this the decline and fall of the American Economy? Is off-shoring our security Enough to Make You Sick...?

EMAILS Fwd:FW: Gerry Gialogo Grindulo,2010-02-03 In this book, author Gerry Gialogo Grindulo shares a compilation of fiction and non-fiction stories based on what could happen in the real world. Most of these tales and anecdotes are forwarded emails; thus, accreditation can be lost throughout such long chain mails and whatnot. He does not own these works and encourages those who own some of the works to contact him so he can give credit where it is due. He feels that these stories are meant to be shared as they have the potential to change the views of many in the world. **EMAILS Fwd:FW:** The Difference is all about making a difference in other peoples' lives. Discover stories about love, stories about faith, stories about relationships, stories about emotions, moral-filled stories, and other different kind of stories. These have helped shape and form Grindulo's life. It had changed him in ways that he had never thought words would. And so, he compiles the works of various writers, some known, some unknown, so that there may be a chance that these words may make a difference in the lives of readers as they did to him.

The Other Side of 50 Steve Ostrow,2009-12-07 This manuscript that you are reading is not a book in the traditional sense of the word. It is rather a compilation of thoughts and experiences I have had and various treatises that I have felt compelled to write over the last few years. It is because of my desire to share these observations that I have decided to put them together. They all served to codify my thoughts and feelings and convey what I personally believe in areas of health of body,

mind and spirit. Because some of these articles were written at different times, you may find certain truths repeated from time to time. Please forgive this and edit them out; it is my feeling that they serve to reinforce that which has helped me to arrive happily at three score and ten. I still refer back to this book as a resource and find its validity for me to be sustaining. If it helps you to have at least one happier day, it will have fulfilled its purpose.

Diabetes without Drugs Suzy Cohen, 2010-11-09 Based on breakthrough studies, Cohen's program reveals how people with diabetes can reduce their need for prescription medication and minimize the disease's effect on the body. Most doctors consider diabetes a one-way street—once you have it, your only option is to manage the symptoms with a restricted diet, close monitoring of blood sugar, and expensive medications. Pharmacist Suzy Cohen shows that diabetes can be treated instead through safe, natural means, like food and vitamins, rather than strictly relying on prescription drugs. She shifts the focus away from glucose management to a whole body approach, using supplements, minerals, and dietary changes to lose weight, repair cell damage, improve insulin function, and reduce the side effects from prescription drugs, many of which rob nutrients from the body and cause additional symptoms. This 5-step program uses natural alternatives, such as drinking nutrition-packed green drinks, adding vitamin D and anti-inflammatory supplements, increasing fiber intake, and including minerals in the diet to help restore the body's own supply of insulin. *Diabetes without Drugs* explains how patients can protect their heart, kidneys, eyesight, and limbs from the damage often caused by diabetes and shows the impact that the

right foods and the right supplements can make in reducing blood sugar levels, aiding weight loss, and restoring vibrant health to everyone with diabetes.

The War Within Krystle Shapiro MSHN LMT,2018-09-28 The statistics about veteran suicide have changed little over the years, hovering most consistently at twenty suicides a day. Most emphasis has been placed on increasing the availability of mental health services for returning soldiers, yet theaters of war present a myriad of factors affecting human health from exposures to toxic elements, extreme environments, and a lack of proper nutrition, not to mention the emotional experiences that all together create a cascade of individualized chemical messenger responses to unrelenting stressors. The War Within informs soldiers, veterans, family members, and caretakers how to first understand what happens to the body under such stressors in theaters of war and how this affects the brain. Once one understands what has happened to the physical body, then appropriate decisions and practices can be undertaken to restore the physical reserves of our warriors, ultimately reversing the heartbreaking suicidal trend that we recognize is currently taking place. The War Within presents a five-part, well-researched program that can serve as a vital complement to the important mental health programs presently being provided for our soldiers and veterans. This program is easy to implement into daily routines, and it enables restoration of optimal brain function, thus reducing the incidence of depression, hopelessness, fatigue, and suicidal ideation.

It's easy for any backyard chef to serve up tantalizing food from the grill! Paul Kirk offers 175 winning recipes that impart bold, zesty flavor to every cut of meat. Kirk

Paul Kirk's techniques and recipes are must-reading for the wannabe and master barbecue chef." —George Hirsch, author of *Grilling with Chef George Kirsch* and *Adventures in Grilling* "No man knows more about barbecue than the Baron, Paul Kirk. 50 Health Scares That Fizzled Joan R. Callahan, 2011-05-25 This engaging, nontechnical book discusses 50 health scares that captured the public's attention before fading away, covering real and perceived health threats from long-ago eras to present times. Despite the benefits of advanced technology and modern safety mechanisms, the world around us seems to grow ever more dangerous and fraught with hidden risks. Even in the information age, it is challenging to discern factual, scientific information from sensationalized accounts in the media, urban legends, or unsubstantiated Internet lore. In *50 Health Scares That Fizzled*, award-winning author and researcher Joan R. Callahan examines 50 health scares in 7 distinct

categories: medical interventions, infectious diseases, food scares, additives in foods or beverages, other biological hazards, chemical or radiological exposures, and lifestyle choices. With great wit and a light tone, Dr. Callahan alleviates readers' concerns and deftly explains the complex issues, making the subject matter approachable.

Heal Your Headache David Buchholz, 2002-08-12 Based on the breakthrough understanding that virtually all headaches are forms of migraine--because migraine is not a specific type of headache, but the built-in mechanism that causes headaches of all kinds, along with neck stiffness, sinus congestion, dizziness, and other problems--Dr. Buchholz's *Heal Your Headache* puts headache sufferers back in control of their lives with a simple, transforming program: Step 1: Avoid the Quick Fix. Too often painkillers only make matters worse because of the crippling complication known as rebound. Step 2: Reduce Your Triggers. The crux of the program: a migraine diet that eliminates the foods that push headache sufferers over the top. Step 3: Raise Your Threshold. When diet and other lifestyle changes aren't enough, preventive medication can help stay the course. That's it: in three steps turn your headache problems around.
