

Do Good Well Your Guide To Leadership Action And Social Innovation

Jeff Dyer, Nathan Furr, Curtis Lefrandt

Do Good Well Nina Vasan, Jennifer Przybylo, 2013-03-14 Written with a fresh voice and a dash of humor, *Do Good Well* is an exciting and readily adaptable guide to social innovation that not only captures the entrepreneurial and creative spirit of our time, but also harnesses the insights, wisdom, and down-to-earth experience of today's most accomplished young leaders. *Do Good Well* offers a winning combination of theory, anecdote, and application, giving you the framework you need to make an impact next door or across the world. The authors present a 12-step process that empowers readers to act on their passions and concerns. This process is organized into three parts: Do What Works, Work Together, and Make It Last. They offer specific guidance for following the process through practical and prescriptive actions such building organizations, joining boards, applying for funding, creating partnerships with organizations that have similar goals, organizing conferences, and publicizing events. The book incorporates accounts of young people in action, and always reinforces the message that social innovation can be a lifestyle, made up of efforts small and large. It is not an all-or nothing proposition, and anyone can affect social change.

The International Handbook on Social Innovation Frank Moulaert, 2013-01-01 The challenges of poverty and social exclusion cannot be fully resolved through conventional public sector policies and market-led innovation. The case studies in this Handbook capture some of the key success factors of socially innovative action in different socio-economic contexts. This Handbook will inspire readers as it highlights the creativity and commitment of diverse enterprises and movements working for social innovation. ð Anna Kajumulo Tibaijuka, Minister for Lands, Housing and Human Settlements, United Republic of Tanzania, and retired UN Under Secretary General, immediate former Executive Director of UN-HABITAT Social innovation may not be a new idea but it is clearly an idea whose time has come, not least because the traditional models of innovation ð narrowly framed technical models ð have run their course and no longer resonate in a world of societal challenges. This Handbook has two great merits ð it brings conceptual rigour to the debate and it provides compelling narratives of social innovation in practice. ð Kevin Morgan, Cardiff University, UK In an era where social innovation is re-emerging as an important policy framework for bringing social transformation, this volume is a significant contribution to the theory and

practice of social innovation. The incremental discussion from concepts to theory to practice and then to social innovation research is supported by cases literally from all over the globe. It moves the discourse from isolated models of neighbourhood engagements and social enterprises, to a comprehensive, multidimensional approach combining needs, social relations and empowerment. A must read for academicians, learners, practitioners and policy makers alike. Ò Ð S. Parasuraman, Tata Institute of Social Sciences, Mumbai, India ÔSocial innovation is an important instrument for understanding how contemporary societies deal with social change and how social practices and policies intended to combat poverty and social exclusion are developed and implemented effectively. The Handbook offers a valuable contribution to the development of a clear, transdisciplinary and critical understanding of social innovation practices. The reader will find an in-depth discussion of the most important theoretical approaches to the concept and a thorough exposition of the epistemological and methodological framework for research in social innovation. The volume includes a number of interesting case studies in different areas of social change and issues of policy and governance. Ò Ð Enzo Mingione, University of Milano-Bicocca, Italy This enriching Handbook covers many aspects of the scientific and socio-political debates on social innovation today. The contributors provide an overview of theoretical perspectives, methodologies and instructive experiences from all continents, as well as implications for collective action and policy. They argue strongly for social innovation as a key to human development. The Handbook defines social innovation as innovation in social relations within both micro and macro spheres, with the purpose of satisfying unmet or new human needs across different layers of society. It connects social innovation to empowerment dynamics, thus giving a political character to social movements and bottom-up governance initiatives. Together these should lay the foundations for a fairer, more democratic society for all. This interdisciplinary work, written by scholars collaborating to develop a joint methodological perspective toward social innovation agency and processes, will be invaluable for students and researchers in social science and humanities. It will also appeal to policy makers, policy analysts, lobbyists and activists seeking to give inspiration and leadership from a social innovation perspective.

Covert Processes at Work Robert J. Marshak, 2006-08-13 The first and only guide to diagnosing and dealing with the hidden or covert factors that can ruin even the most meticulously planned change processes. Organizational change initiatives often fail because they focus exclusively on the rational, overt aspects of change, overlooking the powerful role played by concealed or irrational factors. It's well known that these covert processes—such as hidden agendas, blind spots, office politics, tacit assumptions, secret hopes, wishes and fears—frequently sabotage change efforts, but up until now nobody has offered a rigorous, consistent way of identifying and dealing with them. Drawing on over thirty years of experience as an organizational change consultant to global corporations and government agencies, Robert J. Marshak shows precisely how to bring these hidden processes to light and deal with their negative impact. Marshak identifies five different

dimensions of covert processes, presents an integrated model to explain the ultimate source of all of them, and shows how to diagnose whether any covert processes might be at work in your organization. He then offers specific tools and techniques for engaging and managing these “under-the-table” processes and for creating the kind of organizational environment in which such hidden dynamics are unable to flourish. Covert Processes at Work is a comprehensive and practical guide that managers, leaders, and consultants can use to deal with the hidden dynamics that are often at the root of many organizational problems. “Adding these tools...will take both your practice and your clients to a whole new level of capability and impact.” —Karen Boylston, PhD, Managing Director, Duke Corporate Education

The Power of Social Innovation Stephen Goldsmith, 2010-01-21 THE POWER of SOCIAL INNOVATION Civic leaders across the U.S. and throughout the world are discovering creative ways to overcome the obstacles that seal the doors of opportunity for too many. These inspiring individuals believe that within our communities lie the entrepreneurial spirit, compassion, and resources to make progress in such critical areas as education, housing, and economic self-reliance. Real progress requires that we take bold action and leverage our strengths for the greater good. The Power of Social Innovation offers public officials, social entrepreneurs, philanthropists, and individual citizens the insights and skills to create healthier communities and promote innovative solutions to public and social problems. This seminal work is based on Stephen Goldsmith's decades of experience, extensive ongoing research, and interviews with 100+ top leaders from a wide variety of sectors. Goldsmith shows that everyday citizens can themselves produce extraordinary social change. The book explores the levers and guiding principles used by champions of civic progress who drive new organizations, new interventions, or new policies to enhance social conditions. The Power of Social Innovation features illustrative case studies of change-oriented philanthropists, public officials, and civic leaders. While all collaborate across sectors, they run both start-ups and established organizations such as the New York City public schools, United Way of America, the United Negro College Fund, and Teach For America. The book shows the catalyzing role each plays in transforming a community's social service delivery systems. To complement the book's myriad tools and case studies, The Power of Social Innovation web site (www.powerofsocialinnovation.com) provides links to relevant Harvard research as well as additional helpful resources.

Service-Learning Essentials Barbara Jacoby, 2014-10-08 Service-Learning Essentials is the resource you need to help you develop high-quality service-learning experiences for college students. Written by one of the field's leading experts and sponsored by Campus Compact, the book is the definitive work on this high-impact educational practice. Service-learning has been identified by the Association of American Colleges and Universities as having been widely tested and shown to be beneficial to college students from a wide variety of backgrounds. Organized in an accessible question-and-answer format, the book responds clearly and completely to the most common questions and concerns about service-learning. Each chapter addresses issues related to individual practice as well as to the collective work of starting and developing a service-learning

center or program, with examples drawn from a variety of disciplines, situations, and institutional types. The questions range from basic to advanced and the answers cover both the fundamentals and complexities of service-learning. Topics include: Determining what service-learning opportunities institutions should offer How to engage students in critical reflection in academic courses and in cocurricular experiences Best practices for developing and sustaining mutually beneficial campus-community partnerships Integrating service-learning into the curriculum in all disciplines and at all levels, as well as various areas of student life outside the classroom Assessing service-learning programs and outcomes The dilemmas of service-learning in the context of power and privilege The future of service-learning in online and rapidly globalizing environments Service-learning has virtually limitless potential to enable colleges and universities to meet their goals for student learning while making unique contributions to addressing unmet local, national, and global needs. However, in order to realize these benefits, service-learning must be thoughtfully designed and carefully implemented. This easy-to-use volume contains everything faculty, leaders, and staff members need to know about service-learning to enhance communities, improve higher education institutions, and educate the next generation of citizens, scholars, and leaders.

Nonprofit Management Michael J. Worth,2016-01-28 Michael J. Worth's student-friendly best-seller, *Nonprofit Management: Principles and Practice*, provides a broad, insightful overview of key topics affecting governance and management of nonprofit organizations. Worth covers the scope and structure of the nonprofit sector, leadership of nonprofits, managing the nonprofit organization, fundraising, earned income strategies, financial management, nonprofit lobbying and advocacy, managing international and global organizations, social entrepreneurship, and social innovation. Written specifically for students, this applied text balances research, theory, and practitioner literature, and is packed with current cases, timely examples, and updated data.

Transformational Leadership for the Helping Professions Jean F. East,2018-09-03 Twenty-first-century challenges abound for people in leadership roles in the helping professions (i.e., social work, nursing, teaching, public health, and social services). It is the mission of these professionals to facilitate change not only for consumers of their work, but also for organizations and communities. While many books written for human services leaders focus on leadership roles and tasks,

Transformational Leadership for the Helping Professions explores growth in leadership, coupled with key competencies. The text also combines both classic and current theories on leadership, with a philosophical lens on its meaning and practice in human services settings. Social workers, nurses, teachers, public health workers, and community leaders will find the text to be a useful guide in strengthening their consideration of leadership theory while they practice in day-to-day work. Additionally, educators and students of leadership in the helping professions will gain a solid understanding of key facets of leadership practice within a framework that inspires a social justice, empowerment, and cultural humility perspective.

Multidisciplinary Approach to Diversity and Inclusion in the COVID-19-Era Workplace Hynes, Rilla, Aquino, Carlos Tasso, Hauer, Josephine, 2022-02-25 Empathy, diversity, inclusion, and soft skills are key building blocks of an innovative workforce challenged to respond to the ever-growing needs of the COVID-19 era. Organizations that value diversity and inclusion are looking for ways to manage the shift of workers and skills from traditional manufacturing to the 21st-century vision by incorporating new technology and tools. In this new model, a diverse workforce is necessary, as creativity and innovation grow from the skills that differentiate humans. Further research into the next steps for using diversity and inclusion in an efficient manner, discovering and training new skill sets, and building sustainability into the creative process is needed to fully embrace this new era of inclusion. *Multidisciplinary Approach to Diversity and Inclusion in the COVID-19-Era Workplace* highlights best practices of successful companies in the “new normal” conditions caused by the pandemic and provides innovative research on diversity and inclusion to help organizations navigate the changing competitive global environment. Covering a range of topics such as remote work, unconscious bias, and information literacy, it is ideal for professors, researchers, academicians, practitioners, human resource professionals, industry professionals, and students.

Design Thinking for the Greater Good Jeanne Liedtka, Randy Salzman, Daisy Azer, 2017-09-05 Facing especially wicked problems, social sector organizations are searching for powerful new methods to understand and address them. *Design Thinking for the Greater Good* goes in depth on both the how of using new tools and the why. As a way to reframe problems, ideate solutions, and iterate toward better answers, design thinking is already well established in the commercial world. Through ten stories of struggles and successes in fields such as health care, education, agriculture, transportation, social services, and security, the authors show how collaborative creativity can shake up even the most entrenched bureaucracies—and provide a practical roadmap for readers to implement these tools. The design thinkers Jeanne Liedtka, Randy Salzman, and Daisy Azer explore how major agencies like the Department of Health and Human Services and the Transportation and Security Administration in the United States, as well as organizations in Canada, Australia, and the United Kingdom, have instituted principles of design thinking. In each case, these groups have used the tools of design thinking to reduce risk, manage change, use resources more effectively, bridge the communication gap between parties, and manage the competing demands of diverse stakeholders. Along the way, they have improved the quality of their products and

enhanced the experiences of those they serve. These strategies are accessible to analytical and creative types alike, and their benefits extend throughout an organization. This book will help today's leaders and thinkers implement these practices in their own pursuit of creative solutions that are both innovative and achievable.

Innovation You Jeff DeGraff, 2011-07-26 In today's frenetic, uncertain world, the "same old, same old" routines are perfect ways to go nowhere fast. What has worked for you before—professionally or personally—no longer gets results. Whether you've been downsized, reached the end of a long relationship, or found yourself questioning where you are in life, it's clear you need to change. To innovate. Make it new. Make yourself new. Now, in this invaluable book, the world-renowned "Dean of Innovation," Jeff DeGraff, shares his tried-and-true techniques on how to reinvent yourself—creatively and with maximum impact. *Innovation You* reveals DeGraff's unique four-step program to bolster your ingenuity and remake your life. From forging ahead in a new career to losing weight to finally pursuing that long-held dream, DeGraff's strategies are effective and easy to follow. Inside you will learn to

- Rethink Innovation: Find ways to think outside the box, seek out diverse opinions, and pay attention to the next great trend.
- Rethink Your Approach: Use the Competing Values Framework to identify your natural innovation profile—do you compete, collaborate, create, or control?—and then deliberately draw from the other styles to augment your usual tactics.
- Rethink Your Methods: Put your reinvention plan in motion—set specific, realistic, and meaningful targets, cultivate relationships with relevant mentors and experts, and try alternate methods to achieve your goals.
- Rethink the Journey: Understand that innovation is a process and that progress comes in cycles rather than a quick straight line. Accept uncertainty, question assumptions, and acknowledge areas where you can improve.

Full of invigorating ideas, engaging anecdotes, practical wisdom, and inspiring success stories, *Innovation You* is your personal road map to reach your highest potential—and experience a bold new way of living.

Solving Problems with Design Thinking Jeanne Liedtka, Andrew King, Kevin Bennett, 2013-09-03 Design-oriented firms such as Apple and IDEO have demonstrated how design thinking can directly affect business results. Yet most managers lack a real sense of how to put this new approach to use for issues other than product development and sales growth. *Solving Problems with Design Thinking* details ten real-world examples of managers who successfully applied design methods at 3M, Toyota, IBM, Intuit, and SAP; entrepreneurial start-ups such as MeYou Health; and government and social sector organizations including the City of Dublin and Denmark's The Good Kitchen. Using design skills such as ethnography, visualization, storytelling, and experimentation, these managers produced innovative solutions to problems concerning strategy implementation, sales force support, internal process redesign, feeding the elderly, engaging citizens, and the trade show experience. Here they elaborate on the challenges they faced and the processes and tools they used, offering their personal perspectives and providing a clear path to implementation based on the principles and practices laid out in Jeanne Liedtka and Tim Ogilvie's *Designing for Growth: A Design Thinking Tool Kit for Managers*.

Engine of Impact William F. Meehan III, Kim Starkey Jonker, 2017-11-14 We are entering a new era—an era of impact. The largest intergenerational transfer of wealth in history will soon be under way, bringing with it the potential for huge increases in philanthropic funding. Engine of Impact shows how nonprofits can apply the principles of strategic leadership to attract greater financial support and leverage that funding to maximum effect. As Good to Great author Jim Collins writes in his foreword, this book offers a detailed roadmap of disciplined thought and action for turning a good nonprofit into one that can achieve great impact at scale. William F. Meehan III and Kim Starkey Jonker identify seven essential components of strategic leadership that set high-achieving organizations apart from the rest of the nonprofit sector. Together, these components form an engine of impact—a system that organizations must build, tune, and fuel if they hope to make a real difference in the world. Drawing on decades of teaching, advising, grantmaking, and research, Meehan and Jonker provide an actionable guide that executives, staff, board members, and donors can use to jumpstart their own performance and to achieve extraordinary results for their organization. Along with setting forth best practices using real-world examples, the authors outline common management challenges faced by nonprofits, showing how these challenges differ from those faced by for-profit businesses in important and often-overlooked ways. By offering crucial insights on the fundamentals of nonprofit management, this book will help leaders equip their organizations to fire on all cylinders and unleash the full potential of the nonprofit sector. Innovation and Scaling for Impact Christian Seelos, Johanna Mair, 2017-01-04 Innovation and Scaling for Impact forces us to reassess how social sector organizations create value. Drawing on a decade of research, Christian Seelos and Johanna Mair transcend widely held misconceptions, getting to the core of what a sound impact strategy entails in the nonprofit world. They reveal an overlooked nexus between investments that might not pan out (innovation) and expansion based on existing strengths (scaling). In the process, it becomes clear that managing this tension is a difficult balancing act that fundamentally defines an organization and its impact. The authors examine innovation pathologies that can derail organizations by thwarting their efforts to juggle these imperatives. Then, through four rich case studies, they detail innovation archetypes that effectively sidestep these pathologies and blend innovation with scaling. Readers will come away with conceptual models to drive progress in the social sector and tools for defining the future of their organizations.

The Power of the Herd Linda Kohanov, 2015-07-20 Linda Kohanov is beloved for her groundbreaking articulation of “the way of the horse,” an experiential wisdom known to riders for centuries but little studied or adapted to off-horse use. Now Kohanov takes those horse-inspired insights on the nonverbal elements of exceptional communication and leadership into the realms of our workplaces and relationships. Here we explore the benefits of “nonpredatory power” in developing assertiveness, fostering creativity, dealing with conflict, and heightening mind-body awareness. In “A Brief History of Power,” the first part of this far-reaching book, Kohanov profiles cultural innovators who employed extraordinary nonverbal

leadership skills to change history, usually on horseback: Winston Churchill, George Washington, Alexander the Great, and Siddhartha Gautama (the Buddha), among others. She also draws on the behavior of mature horse herds, as well as the herding cultures of Africa and Mongolia, to debunk theories of dominance hierarchies, challenge ingrained notions of “survival of the fittest,” and demonstrate the power of a consensual leadership in which governing roles are fluid. Kohanov then adapts these lessons into twelve powerful guiding principles we can all incorporate into our work and personal lives. Eloquent and provocative, this is horse sense for everyone who seeks to thrive in the herds we all run in — our communities, careers, families, and friendships.

Reduce Change to Increase Improvement Viviane Robinson, 2017-07-27 Too much change, not enough improvement
Planned changes often fail because those designing them underestimate the complexity of implementation. Reduce Change to Increase Improvement provides a practical structure for helping system and school leaders increase improvement while reducing ineffective change and innovation. By drilling down to the beliefs and values that inform the actual practice of change leaders, Robinson identifies the mindset, processes, and actual behaviors that contribute to successful reform efforts and, importantly, provide school leaders with concrete tools that enable them to be more effective. The structures described in the book are illustrated by numerous examples, cases, and conversation extracts and center on four phases of engagement: Agreeing about the problem to be solved Revealing the beliefs that sustain the current practices Evaluating the relative merit of the existing practices and proposed theory Implementing and monitoring the new theory of action Finally, a serious, evidence-proven book about educational change that takes a different tact - beginning with the impact on the learner. Reduce Change to Increase Improvement is a treasure-trove of concrete information for educational leaders. Robinson, always cautious about change for change sake, brilliantly delineates each step of the way for leaders using authentically-documented conversations and practical discussion-starters that guide us through this collective inquiry approach towards student improvement. All leaders need this concise, clearly-stated text to guide their intentional improvement practices. —Dr. Lyn Sharratt, International Consultant and Author OISE, University of Toronto, Ontario, Canada

Innovation Capital Jeff Dyer, Nathan Furr, Curtis Lefrandt, 2019-05-14 Learn from the Best Great leaders of innovation know that creativity is not enough. They succeed not only on the basis of their ideas, but because they have the vision, reputation, and networks to win the backing needed to commercialize them. It turns out that this quality--called innovation capital--is measurably more important for innovation than just being creative. The authors have spent decades studying how people get great ideas (the subject of The Innovator's DNA) and how people test and develop those ideas (explored in The Innovator's Method). Now they share what they've learned from a multipronged research program designed to determine how people compete for, and obtain, resources to launch new ideas: How you can build a personal reputation for innovation

What techniques you can use to amplify your innovation capital How you can garner attention for your ideas and projects and persuade audiences to support them What it means to provide visionary leadership and how you can achieve it Featuring interviews with the superstars of innovation--individuals like Jeff Bezos (Amazon), Elon Musk (Tesla), Marc Benioff (Salesforce), Indra Nooyi (PepsiCo), and Shantanu Narayen (Adobe)--this book will help you position yourself and your ideas to compete for attention and resources so that you can launch innovations with impact.

Real Impact Morgan Simon,2017-10-03 A leading investment professional explains the world of impact investing -- investing in businesses and projects with a social and financial return--and shows what it takes to make sustainable, transformative change. Impact investment -- the support of social and environmental projects with a financial return -- has become a hot topic on the global stage; poised to eclipse traditional aid by ten times in the next decade. But the field is at a tipping point: Will impact investment empower millions of people worldwide, or will it replicate the same mistakes that have plagued both aid and finance? Morgan Simon is an investment professional who works at the nexus of social finance and social justice. In *Real Impact*, she teaches us how to get it right, leveraging the world's resources to truly transform the economy. Over the past seventeen years, Simon has influenced over \$150 billion from endowments, families, and foundations. In *Real Impact*, Simon shares her experience as both investor and activist to offer clear strategies for investors, community leaders, and entrepreneurs alike. *Real Impact* is essential reading for anyone seeking real change in the world.

The Framework for Innovation Frank Voehl,H. James Harrington,Rick Fernandez,Brett Trusko,2018-12-14 The innovation infrastructure and master plan described in this book offers a detailed and comprehensive approach to one of the most difficult and challenging problems facing entrepreneurs involved in innovation at any scale enterprise: the problem of how to govern your organization's innovation initiatives in the middle of turbulent change. Progress in any field requires the development of a framework, a structure that organizes the accumulating knowledge, enables people to master it, and unifies the key discoveries into a set of principles that makes them understandable and actionable. For starters, successful innovation requires an integrated design process, beginning with integration in the design of the enterprise, the design of the product, along with the design and implementation of new technologies. Such an integrated design effort requires good collaboration and management of the design framework, and should be supported by efficient knowledge management techniques and tools; If innovation is to help a business grow and improve its competitiveness, it is also important to plan the innovation carefully. This book provides a holistic, multidisciplinary framework that will enable your organization and its leaders to take a strategic approach to innovation. The framework combines non-traditional, creative approaches to business innovation with conventional strategy development models. The framework model brings together perspectives from many complementary disciplines: the non-traditional approaches to innovation found in the business creativity movement; multiple-source strategy consulting; the new product development perspective of many leading industrial design firms; qualitative

consumer/customer research; future-based research found in think tanks and traditional scenario planning; and organizational development (OD) practices that examine the effectiveness of an organization’s culture, processes, and structure. Though some ideas may just fall from the sky or come out of the blue, an organization should also have a strategic vision of how the business and the enterprise will successfully develop. It should not just wait for the innovation to arrive arbitrarily, but rather proactively plan for innovation incorporating market trends, the competitive landscape, new technology availability, and changes in customer preferences and trends in order to create a flexible in-house innovation process. Such an enterprise will also pro-actively manage the knowledge supply chain that supports innovation, as outlined in this book #7 of Management Handbook for Results series. The framework outlined in this handbook consists of a well-integrated cohesive set of practices that inspires imaginative innovation teams to look beyond the obvious and explore a broad range of possibilities to identify significant opportunities and make informed decisions about the most promising paths to pursue. The goal is to create a shared vision for growth, along with defining pragmatic action plans that bridge from the future back to the present, while attempting to align the organization around the requirements for success.
