

Denial Holocaust History On Trial

Robert Jan van Pelt

Denial Deborah E. Lipstadt, 2016-09-06 Now a major motion picture starring Rachel Weisz, Timothy Spall and Tom Wilkinson. "A compelling book: memoir and courtroom drama, a work of historical and legal import. " -- Jewish Week Deborah Lipstadt, author of the groundbreaking *Denying the Holocaust*, chronicles her six-year legal battle with controversial British World War II historian David Irving that culminated in a sensational 2000 trial in London. In her acclaimed 1993 book *Denying the Holocaust*, Deborah Lipstadt called putative World War II historian David Irving "one of the most dangerous spokespersons for Holocaust denial", a conclusion that she reached by examining his cunning manipulations of evidence, partisanship to Hitler, persistent exoneration of the Third Reich, and his confirmed celebrity among swelling ranks of anti-Semitic organizations internationally. In 1994, Irving filed a libel lawsuit, not in the U.S. courtroom—where the onus of proof lies on the plaintiff, but in the UK—where the onus of proof lies on the defendant. At stake were not only the reputations of two historians, but the record of history itself. The four-month trial took place in London in 2000 and drew international attention. With the help of a first-rate team of solicitors and historians and the support of her UK publisher, Penguin, Lipstadt won, her victory proclaimed on the front page of major newspapers around the world. Part history, part real life courtroom drama, *Denial* is Lipstadt's riveting, blow-by-blow account of the trial that tested the standards of historical and judicial truths and resulted in a formal denunciation of the infamous Holocaust denier. Originally published as *History on Trial*.

History on Trial Deborah E. Lipstadt, 2006-04-04 In her acclaimed 1993 book *Denying the Holocaust*, Deborah Lipstadt called putative WWII historian David Irving one of the most dangerous spokespersons for Holocaust denial. A prolific author of books on Nazi Germany who has claimed that more people died in Ted Kennedy's car at Chappaquiddick than in the gas chambers at Auschwitz, Irving responded by filing a libel lawsuit in the United Kingdom -- where the burden of proof lies on the defendant, not on the plaintiff. At stake were not only the reputations of two historians but the record of history itself.

Denying the Holocaust Deborah E. Lipstadt, 2012-12-18 The denial of the Holocaust has no more credibility than the assertion that the earth is flat. Yet there are those who insist that the death of six million Jews in Nazi concentration camps is nothing but a hoax perpetrated by a powerful Zionist conspiracy. Sixty years ago, such notions were the province of pseudohistorians who argued that Hitler never meant to kill the Jews, and that only a few hundred thousand died in the

camps from disease; they also argued that the Allied bombings of Dresden and other cities were worse than any Nazi offense, and that the Germans were the “true victims” of World War II. For years, those who made such claims were dismissed as harmless cranks operating on the lunatic fringe. But as time goes on, they have begun to gain a hearing in respectable arenas, and now, in the first full-scale history of Holocaust denial, Deborah Lipstadt shows how—despite tens of thousands of living witnesses and vast amounts of documentary evidence—this irrational idea not only has continued to gain adherents but has become an international movement, with organized chapters, “independent” research centers, and official publications that promote a “revisionist” view of recent history. Lipstadt shows how Holocaust denial thrives in the current atmosphere of value-relativism, and argues that this chilling attack on the factual record not only threatens Jews but undermines the very tenets of objective scholarship that support our faith in historical knowledge. Thus the movement has an unsuspected power to dramatically alter the way that truth and meaning are transmitted from one generation to another.

The Eichmann Trial Deborah E. Lipstadt, 2011-03-15 ***NATIONAL JEWISH BOOK AWARD FINALIST (2012)*** Part of the Jewish Encounter series The capture of SS Lieutenant Colonel Adolf Eichmann by Israeli agents in Argentina in May of 1960 and his subsequent trial in Jerusalem by an Israeli court electrified the world. The public debate it sparked on where, how, and by whom Nazi war criminals should be brought to justice, and the international media coverage of the trial itself, was a watershed moment in how the civilized world in general and Holocaust survivors in particular found the means to deal with the legacy of genocide on a scale that had never been seen before. Award-winning historian Deborah E. Lipstadt gives us an overview of the trial and analyzes the dramatic effect that the survivors’ courtroom testimony—which was itself not without controversy—had on a world that had until then regularly commemorated the Holocaust but never fully understood what the millions who died and the hundreds of thousands who managed to survive had actually experienced. As the world continues to confront the ongoing reality of genocide and ponder the fate of those who survive it, this trial of the century, which has become a touchstone for judicial proceedings throughout the world, offers a legal, moral, and political framework for coming to terms with unfathomable evil. Lipstadt infuses a gripping narrative with historical perspective and contemporary urgency.

Holocaust Deborah E. Lipstadt, 2016-07-21 Immediately after World War II, there was little discussion of the Holocaust, but today the word has grown into a potent political and moral symbol, recognized by all. In *Holocaust: An American Understanding*, renowned historian Deborah E. Lipstadt explores this striking evolution in Holocaust consciousness, revealing how a broad array of Americans—from students in middle schools to presidents of the United States—tried to make sense of this inexplicable disaster, and how they came to use the Holocaust as a lens to interpret their own history. Lipstadt weaves a powerful narrative that touches on events as varied as the civil rights movement, Vietnam, Stonewall, and the women’s movement, as well as controversies over Bitburg, the Rwandan genocide, and the bombing of Kosovo. Drawing upon

extensive research on politics, popular culture, student protests, religious debates and various strains of Zionist ideologies, Lipstadt traces how the Holocaust became integral to the fabric of American life. Even popular culture, including such films as *Dr. Strangelove* and such books as John Hershey's *The Wall*, was influenced by and in turn influenced thinking about the Holocaust. Equally important, the book shows how Americans used the Holocaust to make sense of what was happening in the United States. Many Americans saw the civil rights movement in light of Nazi oppression, for example, while others feared that American soldiers in Vietnam were destroying a people identified by the government as the enemy. Lipstadt demonstrates that the Holocaust became not just a tragedy to be understood but also a tool for interpreting America and its place in the world. Ultimately *Holocaust: An American Understanding* tells us as much about America in the years since the end of World War II as it does about the Holocaust itself.

Telling Lies about Hitler Richard J. Evans, 2002 Richard J. Evans worked on the historical evidence on behalf of the defence during the Irving libel trial. In *Telling Lies about Hitler*, the author discusses the importance of historical writing and the social role of historians in such trials.

The Holocaust on Trial D. D. Guttenplan, 2002 The account of a trial in which the very meaning of the Holocaust was put on the stand.

The Case for Auschwitz Robert Jan van Pelt, 2016-03-23 From January to April 2000 historian David Irving brought a high-profile libel case against Penguin Books and Deborah Lipstadt in the British High Court, charging that Lipstadt's book, *Denying the Holocaust* (1993), falsely labeled him a Holocaust denier. The question about the evidence for Auschwitz as a death camp played a central role in these proceedings. Irving had based his alleged denial of the Holocaust in part on a 1988 report by an American execution specialist, Fred Leuchter, which claimed that there was no evidence for homicidal gas chambers in Auschwitz. In connection with their defense, Penguin and Lipstadt engaged architectural historian Robert Jan van Pelt to present evidence for our knowledge that Auschwitz had been an extermination camp where up to one million Jews were killed, mainly in gas chambers. Employing painstaking historical scholarship, van Pelt prepared and submitted an exhaustive forensic report that he successfully defended in cross-examination in court.

Denying History Michael Shermer, Alex Grobman, 2023-11-10 *Denying History* takes a bold and in-depth look at those who say the Holocaust never happened and explores the motivations behind such claims. While most commentators have dismissed the Holocaust deniers as antisemitic neo-Nazi thugs who do not deserve a response, historians Michael Shermer and Alex Grobman have immersed themselves in the minds and culture of these Holocaust revisionists. In the process, they show how we can be certain that the Holocaust happened and, for that matter, how we can confirm any historical event. This edition is expanded with a new chapter and epilogue examining current, shockingly mainstream revisionism.

Lying About Hitler Richard J. Evans, 2008-08-04 In ruling against the controversial historian David Irving in his libel suit

against the American historian Deborah Lipstadt, last April 2000, the High Court in London labeled him a falsifier of history. No objective historian, declared the judge, would manipulate the documentary record in the way that Irving did. Richard J. Evans, a Cambridge historian and the chief advisor for the defense, uses this pivotal trial as a lens for exploring a range of difficult questions about the nature of the historian's enterprise. For instance, don't all historians in the end bring a subjective agenda to bear on their reading of the evidence? Is it possible that Irving lost his case not because of his biased history but because his agenda was unacceptable? The central issue in the trial -- as for Evans in this book -- was not the past itself, but the way in which historians study the past. In a series of short, sharp chapters, Richard Evans sets David Irving's methods alongside the historical record in order to illuminate the difference between responsible and irresponsible history. The result is a cogent and deeply informed study in the nature of historical interpretation.

History on Trial Deborah E. Lipstadt, 2005-02-01 In 1993, Deborah E. Lipstadt, a professor of Jewish Studies at Emory University, published the first comprehensive history of the Holocaust denial movement. In this critically acclaimed account, Lipstadt called David Irving -- a prolific, respected, and well-known writer on World War II who had, over the years, made controversial statements about Hitler and the Jews -- one of the most dangerous spokespersons of the denial movement. A year later, when Irving sued Deborah Lipstadt and her publisher, Penguin UK, for libel in a London courtroom, the media spotlight fell on Deborah Lipstadt and, by extension, on the historiography of the Holocaust. Five years later, when David Irving lost his case after an intense ten-week trial, Lipstadt's resounding victory was proclaimed on front pages of newspapers worldwide. The implications of the trial, however, were far from over. *History on Trial* is Deborah Lipstadt's personal, riveting chronicle of the legal battle with Irving, in which she went from a relatively quiet existence as a professor at an American university to being a defendant in a sensational libel case. This blow-by-blow account reveals how Lipstadt raised \$1.5 million for her defense, which included a first-rate team of solicitors, historians, and experts, among them Anthony Julius, a literary scholar who is better known as the late Princess Diana's divorce lawyer. Lipstadt describes how in forced silence she endured Irving's relentless provocations, including his claims that more people died in Senator Kennedy's car at Chappaquiddick than in the gas chambers at Auschwitz, that survivors tattooed numbers on their arms to make money, and that nonwhite people are a different species. She also reveals how her lawyers gained access to Irving's personal papers, which exposed his association with neo-Nazi extremists in Germany, former Ku Klux Klan leader David Duke, and the National Alliance, which wants to transform America into an Aryan society. In the course of the trial, Lipstadt's legal team stripped away Irving's mask of respectability through exposing the prejudice, extremism, and distortion of history that defined his work, even his once highly regarded account of the Dresden bombing. Part history, part edge-of-your-seat courtroom drama, *History on Trial* goes beyond the historiography of World War II and the Holocaust to reveal the intricate way in which extremism and deliberate historical distortions gain widespread legitimacy and help generate hatred. An

inspiring personal story of perseverance and unexpected limelight, here is the definitive account of the trial that tested the standards for historical and judicial truths, a trial that the Daily Telegraph of London proclaimed did for the new century what the Nuremberg tribunals or the Eichmann trial did for earlier generations.

Antisemitism Deborah E. Lipstadt, 2019-01-29 ***2019 NATIONAL JEWISH BOOK AWARD WINNER—Jewish Education and Identity Award*** The award-winning author of *The Eichmann Trial and Denial: Holocaust History on Trial* gives us a penetrating and provocative analysis of the hate that will not die, focusing on its current, virulent incarnations on both the political right and left: from white supremacist demonstrators in Charlottesville, Virginia, to mainstream enablers of antisemitism such as Donald Trump and Jeremy Corbyn, to a gay pride march in Chicago that expelled a group of women for carrying a Star of David banner. Over the last decade there has been a noticeable uptick in antisemitic rhetoric and incidents by left-wing groups targeting Jewish students and Jewish organizations on American college campuses. And the reemergence of the white nationalist movement in America, complete with Nazi slogans and imagery, has been reminiscent of the horrific fascist displays of the 1930s. Throughout Europe, Jews have been attacked by terrorists, and some have been murdered. Where is all this hatred coming from? Is there any significant difference between left-wing and right-wing antisemitism? What role has the anti-Zionist movement played? And what can be done to combat the latest manifestations of an ancient hatred? In a series of letters to an imagined college student and imagined colleague, both of whom are perplexed by this resurgence, acclaimed historian Deborah Lipstadt gives us her own superbly reasoned, brilliantly argued, and certain to be controversial responses to these troubling questions.

Holocaust and Genocide Denial Paul Behrens, Olaf Jensen, Nicholas Terry, 2017-05-18 This book provides a detailed analysis of one of the most prominent and widespread international phenomena to which criminal justice systems has been applied: the expression of revisionist views relating to mass atrocities and the outright denial of their existence. Denial poses challenges to more than one academic discipline: to historians, the gradual disappearance of the generation of eyewitnesses raises the question of how to keep alive the memory of the events, and the fact that negationism is often offered in the guise of historical 'revisionist scholarship' also means that there is need for the identification of parameters which can be applied to the office of the 'genuine' historian. Legal academics and practitioners as well as political scientists are faced with the difficulty of evaluating methods to deal with denial and must in this regard identify the limits of freedom of speech, but also the need to preserve the rights of victims. Beyond that, the question arises whether the law can ever be an effective option for dealing with revisionist statements and the revisionist movement. In this regard, *Holocaust and Genocide Denial: A Contextual Perspective* breaks new ground: exploring the background of revisionism, the specific methods devised by individual States to counter this phenomenon, and the rationale for their strategies. Bringing together authors whose expertise relates to the history of the Holocaust, genocide studies, international criminal law and social anthropology, the

book offers insights into the history of revisionism and its varying contexts, but also provides a thought-provoking engagement with the challenging questions attached to its treatment in law and politics.

Beyond Belief Deborah E. Lipstadt,1993-02-08 This most complete study to date of American press reactions to the Holocaust sets forth in abundant detail how the press nationwide played down or even ignored reports of Jewish persecutions over a twelve-year period.

Reflections on the Holocaust Julia Zarankin,2011

Holocaust Denial as an International Movement Stephen E. Atkins,2009-04-30 The end of World War II saw an emergence of Holocaust dissention that began in Europe and has since developed into an international movement with adherents in almost every country in the world. At first, this denial was fueled by the desire to rehabilitate Adolf Hitler and the Nazi regime in an effort to reestablish a neo-Nazi state. In the following years, coupled with the renewal of anti-Semitism, this dissent has been used as a means of denying the legitimacy of the state of Israel. Despite these motivations, the ultimate cause for concern is in the way this denial attracts its members by both challenging the existence of the Holocaust and the testimony of its witnesses. By tracing the history, causes, and spread of Holocaust denial, Atkins reveals the dangers this mindset poses to rational thinkers who become vulnerable to fringe ideas. This book traces the state of the international Holocaust denial movement in the early 21st century, grounding contemporary thought in the history of the movement. Since Holocaust deniers have distorted the facts about this mass genocide, Atkins discusses just what is known about the Holocaust from historical research conducted since World War II. The role of negative racial genetics is explored in both Hitler's intellectual makeup and among the leaders of the German right wing, including historians' assessments of Hitler's anti-Semitism, motivations, and decision-making. Also provided is a roll call of Holocaust dissenters in countries such as the United States, Germany, France, Great Britain, Russia, and Italy, among many others. By analyzing the arguments of leaders within this expanding dissention movement, this book demonstrates how extremists build informational links that have wide-ranging effects.

Postmodernism and Holocaust Denial Robert Eaglestone,2001 Deborah Lipstadt claimed that David Irving was a Hitler partisan wearing blinkers bending and manipulating evidence: the most dangerous spokesperson for Holocaust denial. Irving sued her and her publishers in a high profile case and lost.

The Memory of Judgment Lawrence Douglas,2001-01-01 This is an examination of the law's response to the crimes of the Holocaust. It studies exemplary proceedings including the Nuremberg trial of the major Nazi war criminals and the Israeli trials of Adolf Eichmann and John Demjanjuk.
