Founders at Work Jessica Livingston,2008-11-01 Now available in paperback—with a new preface and interview with Jessica Livingston about Y Combinator! Founders at Work: Stories of Startups' Early Days is a collection of interviews with founders of famous technology companies about what happened in the very earliest days. These people are celebrities now. What was it like when they were just a couple friends with an idea? Founders like Steve Wozniak (Apple), Caterina Fake (Flickr), Mitch Kapor (Lotus), Max Levchin (PayPal), and Sabeer Bhatia (Hotmail) tell you in their own words about their surprising and often very funny discoveries as they learned how to build a company. Where did they get the ideas that made them rich? How did they convince investors to back them? What went wrong, and how did they recover? Nearly all technical people have thought of one day starting or working for a startup. For them, this book is the closest you can come to being a fly on the wall at a successful startup, to learn how it's done. But ultimately these interviews are required reading for anyone who wants to understand business, because startups are business reduced to its essence. The reason their founders become rich is that startups do what businesses do—create value—more intensively than almost any other part of the economy. How? What are the secrets that make successful startups so insanely productive? Read this book, and let the founders themselves tell you.

SUMMARY - Founders At Work: Stories Of Startups Early Days By Jessica Livingston Shortcut Edition,2021-06-04 * Our summary is short, simple and pragmatic. It allows you to have the essential ideas of a big book in less than 30 minutes. By reading this summary, you will discover how the groups of web giants were built, and how their success, based on innovative ideas, took place from the very first years. You will also discover that : success does not necessarily depend on a grandiose project and substantial funds; the simplest ideas are often the best; it is necessary to know your product well: success is more often achieved when a technician founds a company than when he is a salesman; you need to know how to surround yourself with the right people and be lucky to create an efficient network. Based on interviews with the founders of some of the most popular startups on the web, Jessica Livingston reveals their common characteristics: an unwavering determination to create a project that works, an unfailing perseverance, an adaptability that requires a great flexibility of mind and a real motivation, residing more in the love of a job well done and the desire to change the world than in the desire to make a lot of money. In a large company, the time spent on looking efficient is less and less time spent on productivity. Startups, on the other hand,

prefer working methods that leave less room for appearances and focus on efficiency. This book proposes to explore what, according to their creators, has made the greatest successes on the web. *Buy now the summary of this book for the modest price of a cup of coffee!

<u>Startups in Action</u> JP Silva,2020-05-09 The growing pains of a startup's initial year in business require a keen awareness of uncertainties and a willingness to adapt in order to survive. Today's new founders greatly benefit from taking a behind-the-scenes look at successful companies such as Etsy, HotelTonight, Fiverr, and more in regards to how they overcame the challenges of their first year. Startups in Action is your curated source for critical insights and inspiration from those who have been there before. This book documents the month-to-month journeys of these companies in their first year, zeroing in on key decisions that helped them recover from missteps, and adapt to complications, to eventually grow and succeed. Were the founders full-time from the beginning? How long did it take them to build a working prototype? How many end-users did they have in the first year? The answers to these questions are of interest to those who are just starting out and want to learn by example. Collected from interviews with the founders themselves, author JP Silva answers these questions and reveals how each of the startups charted their paths to success. Startups in Action is equal parts inspirational and practical, providing guidance through a foundation of relatability to help cope with situations and surprises experienced during a startup's first year. Startup discourse is rife with myths and oversimplification. Cut through the noise and learn the events, actions, and counteractions only attainable from the founders themselves. As more and more aspiring entrepreneurs are about to start their journeys, the value of knowledge about difficult choices and obstacles that companies face in their first year is critical. With Startups in Action, you will benefit from the invaluable knowledge of experience and be prepared to face the challenges of building a successful startup. What You Will Learn Acquire critical insights from the most successful startups, easily available and collated in one bookCompare and contrast the first year journey of your startup with that of giants such as Etsy, StubHub, Fiverr, and moreLearn how to build better startups by understanding what you should or should not do Who This Book Is For This book is for new and aspiring founders, and those curious to learn about the journeys

of successful startups.

<u>Zero to One</u> Blake Masters,Peter Thiel,2014-09-18 WHAT VALUABLE COMPANY IS NOBODY BUILDING? The next Bill Gates will not build an operating system. The next Larry Page or Sergey Brin won't make a search engine. If you are copying these guys, you aren't learning from them. It's easier to copy a model than to make something new: doing what we already know how to do takes the world from 1 to n, adding more of something familiar. Every new creation goes from 0 to 1. This book is about how to get there. 'Peter Thiel has built multiple breakthrough companies, and Zero to One shows how.' ELON MUSK, CEO of SpaceX and Tesla 'This book delivers completely new and refreshing ideas on how to create value in the world.' MARK ZUCKERBERG, CEO of Facebook 'When a risk taker writes a book, read it. In the case of Peter Thiel, read it twice. Or, to be safe, three times. This is a classic.' NASSIM NICHOLAS TALEB, author of The Black Swan

<u>The Founder's Dilemmas</u> Noam Wasserman,2013-04 The Founder's Dilemmas examines how early decisions by entrepreneurs can make or break a startup and its team. Drawing on a decade of research, including quantitative data on almost ten thousand founders as well as inside stories of founders like Evan Williams of Twitter and Tim Westergren of Pandora, Noam Wasserman reveals the common pitfalls founders face and how to avoid them.

Founding Sales Peter R Kazanjy,2020-08-04 This book is specifically targeted for founders who find themselves at the point where they need to transition into a selling role. Specifically founders who are leading organizations that have a B2B, direct sales model that involves sales professionals engaging in verbal, commercial conversations with buyers. Moreover, many examples in this book will be targeted specifically to the realm of B2B SAAS software, and specifically as regards new, potentially innovative or disruptive offerings that are being brought to market for the first time. In short, direct sales of the sort a B2B SAAS software startup would engage in. With that said, if you are looking to be a first time salesperson, transitioning in from another type of role, or fresh out of school, in an organization that meets those characteristics above, you will get value out of this book. Similarly, if you are a first time sales manager, either of the founder type, or a sales individual contributor who is transitioning into that role, again, in an organization who meets the criteria above, you will also get value from this book.

Trajectory: Startup Dave Parker,2021-03-30 Have a startup idea? Want to launch it fast? People often spend years on working on startup ideas that fail—and they could have known long before, had they asked the hard questions earlier. Five-time tech founder Dave Parker has been there, and in Trajectory: Startup he offers a path to get you from ideation to launch and revenue in just six months. With a track record of starting companies from scratch, raising both angel and venture capital, and participating in eight exits as founder, operator, and board member, Parker's experience is practical and actionable. Having sold three of his own startups and closed two, Parker learned just as much from his failures as from his successes, and he brings this wit and wisdom into his writing in a transparent way. Parker shares advice on: • What makes a

good idea that makes money • Recruiting and working with cofounders • Asking customers what product they want (customer development) • How to build a tech product even as a non-tech founder • How to get out of your head, ship a product, and make your first sale Trajectory: Startup removes the mystery from the startup process and outlines a roadmap of tasks and timeframes, with monthly milestones and resources. This pre-accelerator program will help you get the momentum you need. Skip the Executive MBA and go make money! This guide makes starting a company accessible to a broad range of founders, investors, and employees who have the spark of innovation and drive to follow their dreams.

The Startup Playbook Rajat Bhargava,Will Herman,2020-06-23 Get the real guidance you need to create and build your first startup company from founders who have been there many times before. The first run printing of The Startup Playbook SOLD OUT! So, we revised, expanded, and improved this second edition, including a new foreword by Brad Feld, author of Venture Deals. We still give our personal, how-to guide for building your startup from the ground up. You'll find a collection of the major lessons and shortcuts we've learned that will shift the odds in your favor. We're sharing our tips, secrets, and advice in a frank, founder-to-founder discussion with you. We make no bones about our bias. We're on your side, the founder's side. While venture capitalists, investors, and accelerators/incubators can add great value in the startup ecosystem, this book isn't about their points of view. We'll tell you where our interests as founders diverge from those on the other side of the table—investors, bankers, advisors, board members, and others—and what to do when that happens. The Startup Playbook is not a recipe, it's not a template, it's not a list of tasks to do. It's our insider's guide to starting a company and running it successfully in those critical early months. Between us, we've started over a dozen high-tech software companies and raised over $500 million in investment capital. We've acquired over thirty-five companies, had three of our startups go public, sold six of them, and we made billions of dollars for shareholders. We've also invested in over eighty startups, advised and mentored over two hundred companies and actively worked with venture capitalists (VCs), incubators, and accelerators to help launch many other new startups. We've had plenty of failures, too. And we've probably learned more from those than from the successes. We share those lessons as well. The Startup Playbook is full of our advice, guidance, do's, and don'ts from our years of experience as founders many times. We want to share our hard-earned knowledge with you to make success easier for you to achieve. This book is extraordinarily fresh and exciting. In an accessible, straight talk fashion, this book is a manual, and an inspiration. The Startup Playbook is smart and avoids the 'I am so smart' over-writing endemic to the genre. Read this as it is presented. You'll be doing yourself a tremendous favor. —Amazon Reviewer

Lost and Founder Rand Fishkin,2024-05-14 Rand Fishkin, the founder and former CEO of Moz, reveals how traditional Silicon Valley wisdom leads far too many startups astray, with the transparency and humor that his hundreds of thousands of blog readers have come to love. Everyone knows how a startup story is supposed to go: A young, brilliant entrepreneur has a cool idea, drops out of college, defies the doubters, overcomes all odds, makes billions, and becomes the envy of the

technology world. This is not that story. It's not that things went badly for Rand Fishkin; they just weren't quite so Zuckerberg-esque. His company, Moz, maker of marketing software, is now a $45 million/year business, and he's one of the world's leading experts on SEO. But his business and reputation took fifteen years to grow, and his startup began not in a Harvard dorm room but as a mother-and-son family business that fell deeply into debt. Now Fishkin pulls back the curtain on tech startup mythology, exposing the ups and downs of startup life that most CEOs would rather keep secret. For instance: A minimally viable product can be destructive if you launch at the wrong moment. Growth hacking may be the buzzword du jour, but initiatives can fizzle quickly. Revenue and growth won't protect you from layoffs. And venture capital always comes with strings attached. Fishkin's hard-won lessons are applicable to any kind of business environment. Up or down the chain of command, at both early stage startups and mature companies, whether your trajectory is riding high or down in the dumps: this book can help solve your problems, and make you feel less alone for having them.

Run_frictionless: How to Free a Founder from a Sale Role Anthony Coundouris,2019-01-17 run frictionless helps founders scale out of a sales role, using a decision-making framework called the 4Qs.The mistake founders and high performing salespeople make is trying to scale up the business by replacing themselves with another human being. Simply, there isn't another human like you looking for a job. Those who are good at selling are busy doing their own startup, not working for you. Scale up a business and free the founder of sales role There are a few things you can try to free a founder from a sales role. One. Don't worry, keep growing. Two. Stop growing the business. Or three, hire a replacement. These are not effective! Over time they will fail you.run frictionless presents an alternative - an option nobody is talking about. Scaling the business with a sales system.A sales system spells out the formula required to make a customer, in a clearly understood sequence. It is similar to a sales funnel or sales process, only more comprehensive. It will tell you the precise number of interactions required to make a customer. If you serve small businesses, this could be 15 interactions. If you serve enterprise forms it could number 25 or more interactions. Predict sales. Distill a sale process to a handful of customer interactions you can teach the whole organization. Win a customer, and know why you won that customer. Get more leads. The book offers several pre-designed customer flows to improve sales you can use right away. Imagine how much business you're turning away, simply because you're not starting conversations with customers the way they want. Better decision-making. If you are going to free the founder, staff have to learn to think like the founder. Make everyone accountable with an easy-to-use framework called the 4Qs. Sell 24/7. Automation moves the customers through a sales system even when the salesforce or founder is not at their desk. Scaling up the startup with a sales system A sales system is key to scaling up a startup. If staff follow the formula, you can predict the odds of creating a customer. Imagine a sales system as a series of dials. Turn the dials and you make an improvement. It is not uncommon to improve sales by 25 percent just by turning a dial. You didn't re-engineer the business or substitute staff. Building lasting sales teams Another benefit of a sales system is it augments your workforce. The best people

are working on the highest value tasks, and other tasks can be carried out by less experienced folk. The intellectual property of how a customer is made is in the sales system. Each salesperson needs only understand the part of the system where they contribute. Design your own sales system run frictionless will teach you how to design a sales system, using a framework called the 4Qs. It doesn't matter if you are a fintech startup or a traditional medical practice operating for five years. The 4Qs will take what you know intuitively and organize this knowledge into four powerful quadrants, making it easy to run frictionless.

The Mom Test Rob Fitzpatrick,2013-10-09 The Mom Test is a quick, practical guide that will save you time, money, and heartbreak. They say you shouldn't ask your mom whether your business is a good idea, because she loves you and will lie to you. This is technically true, but it misses the point. You shouldn't ask anyone if your business is a good idea. It's a bad question and everyone will lie to you at least a little . As a matter of fact, it's not their responsibility to tell you the truth. It's your responsibility to find it and it's worth doing right . Talking to customers is one of the foundational skills of both Customer Development and Lean Startup. We all know we're supposed to do it, but nobody seems willing to admit that it's easy to screw up and hard to do right. This book is going to show you how customer conversations go wrong and how you can do better.

The Startup of You (Revised and Updated) Reid Hoffman,Ben Casnocha,2012-02-14 The groundbreaking #1 New York Times bestseller that taught a generation how to transform their careers—now in a revised and updated edition "A profound book about self-determination and self-realization."—Senator Cory Booker "The Startup of You is crammed with insights and strategies to help each of us create the work life we want."—Gretchen Rubin, author of The Happiness Project In this invaluable book, LinkedIn co-founder Reid Hoffman and venture capitalist Ben Casnocha show how to accelerate your career in today's competitive world. The key is to manage your career as if it were a startup business: a living, breathing, growing startup of you. Why? Startups—and the entrepreneurs who run them—are nimble. They invest in themselves. They build their professional networks. They take intelligent risks. They make uncertainty and volatility work to their advantage. These are the very same skills professionals need to get ahead today. This book isn't about cover letters or résumés. Instead, you will learn the best practices of the most successful startups and how to apply these entrepreneurial strategies to your career. Whether you work for a giant multinational corporation, stitch together multiple gigs in a portfolio career, or are launching your own venture, you need to know how to • adapt your career plans as pandemics rage and technologies upend industries • develop a competitive advantage so that you stand out from others at work • strengthen your professional network by building powerful alliances and maintaining a diverse mix of relationships • engineer serendipity that produces life-changing career opportunities • take proactive risks to become more resilient to industry tsunamis • tap your network for information and intelligence that help you make smarter decisions The career landscape has changed dramatically in the decade since

Hoffman and Casnocha first published this guide. In an urgent update to the frameworks that have helped hundreds of thousands of people transform their careers, this new edition of The Startup of You will teach you how to achieve your boldest professional ambitions.

50 Failed Startup Lessons Alexander Small,2019-11-17 Failure sucks. You may have heard of the famous startup math: nine of out 10 startups fail. The bitter truth about failure hurts but the most important thing is that most entrepreneurs move on to do something else. It's not over until you give up. There are a ton of startups trying to make it, and a lot of them just don't make the cut. Whether it's poor budgeting, lack of excitement, or bad management, the onus is on the founders to explain what really happened. The good news for aspiring entrepreneurs is that, some founders open up about their failures and share their experiences with the public without hesitation.I have rounded up over 50 startups that failed and the reasons why they failed to make it. The reasons for their failure were shared by the founders and those close to management in various startup post-mortems online.Learn from their experiences and avoid the issues they had to deal with.

Startup CEO Matt Blumberg,2020-08-04 You're only a startup CEO once. Do it well with Startup CEO, a master class in building a business. —Dick Costolo, Former CEO, Twitter Being a startup CEO is a job like no other: it's difficult, risky, stressful, lonely, and often learned through trial and error. As a startup CEO seeing things for the first time, you're likely to make mistakes, fail, get things wrong, and feel like you don't have any control over outcomes. Author Matt Blumberg has been there, and in Startup CEO he shares his experience, mistakes, and lessons learned as he guided Return Path from a handful of employees and no revenues to over $100 million in revenues and 500 employees. Startup CEO is not a memoir of Return Path's 20-year journey but a thoughtful CEO-focused book that provides first-time CEOs with advice, tools, and approaches for the situations that startup CEOs will face. You'll learn: How to tell your story to new hires, investors, and customers for greater alignment How to create a values-based culture for speed and engagement How to create business and personal operating systems so that you can balance your life and grow your company at the same time How to develop, lead, and leverage your board of directors for greater impact How to ensure that your company is bought, not sold, when you exit Startup CEO is the field guide every CEO needs throughout the growth of their company.

Startupland Mikkel Svane,2014-12-08 The real story of what it takes to risk it all and go for broke. Conventional wisdom says most startups need to be in Silicon Valley, started by young engineers around a sexy new idea, and backed by VC funding. But as Mikkel Svane reveals in Startupland, the story of founding Zendesk was anything but conventional. Founded in a Copenhagen loft by three thirty-something friends looking to break free from corporate doldrums, Zendesk Inc. is now one of the hottest enterprise software companies, still rapidly growing with customers in 150 countries. But its success was anything but predestined. With revealing stories both funny and frank, Mikkel shares how he and his friends bravely left secure jobs to start something on their own, how he almost went broke several times, how they picked up themselves and

their families to travel across the world to California and the unknown, and how the three friends were miraculously still together for Zendesk's IPO and (still growing) success. Much like Zendesk's mission itself—to remove friction, barriers, and mystery in order to make customer service easier and more approachable—Startupland removes some of the myths about startups and startup founders. Mikkel's advice, hard-won through experience, often bucks conventional wisdom and entrepreneurial tropes. He shares why failure (whether fast or slow) is awful, why a seemingly boring product or idea can be the most exciting, why giving back to the community is as important as the bottom line. From how to hire right (look for people who are not offended by swearing) to which personas generate the highest response rates, Mikkel answers the most pressing questions from the perspective of someone still in the trenches and willing to share the hard truth, warts and all. While there are books by consultants who tell you how to build businesses, or by entrepreneurs now running billion-dollar businesses, there are few books from people still in the trenches who acutely remember the difficult daily decisions, the thrill (and fears) of the early days, the problems that scale with growing a business, and the reason why they all went on the adventure in the first place. Startupland is indispensable reading for all entrepreneurs who want to make their ideas the next big thing. The book will inspire and empower you to follow your own dream and create your own story.

Why Startups Fail Tom Eisenmann,2021-03-30 If you want your startup to succeed, you need to understand why startups fail. "Whether you're a first-time founder or looking to bring innovation into a corporate environment, Why Startups Fail is essential reading."—Eric Ries, founder and CEO, LTSE, and New York Times bestselling author of The Lean Startup and The Startup Way Why do startups fail? That question caught Harvard Business School professor Tom Eisenmann by surprise when he realized he couldn't answer it. So he launched a multiyear research project to find out. In Why Startups Fail, Eisenmann reveals his findings: six distinct patterns that account for the vast majority of startup failures. • Bad Bedfellows. Startup success is thought to rest largely on the founder's talents and instincts. But the wrong team, investors, or partners can sink a venture just as quickly. • False Starts. In following the oft-cited advice to "fail fast" and to "launch before you're ready," founders risk wasting time and capital on the wrong solutions. • False Promises. Success with early adopters can be misleading and give founders unwarranted confidence to expand. • Speed Traps. Despite the pressure to "get big fast," hypergrowth can spell disaster for even the most promising ventures. • Help Wanted. Rapidly scaling startups need lots of capital and talent, but they can make mistakes that leave them suddenly in short supply of both. • Cascading Miracles. Silicon Valley exhorts entrepreneurs to dream big. But the bigger the vision, the more things that can go wrong. Drawing on

fascinating stories of ventures that failed to fulfill their early promise—from a home-furnishings retailer to a concierge dog-walking service, from a dating app to the inventor of a sophisticated social robot, from a fashion brand to a startup deploying a vast network of charging stations for electric vehicles—Eisenmann offers frameworks for detecting when a venture is vulnerable to these patterns, along with a wealth of strategies and tactics for avoiding them. A must-read for founders at any stage of their entrepreneurial journey, Why Startups Fail is not merely a guide to preventing failure but also a roadmap charting the path to startup success.
