Military Operation and Engagement in the Domestic Jurisdiction Pauline Therese Collins,Rosalie Arcala Hall,2022-06-08

Pluralist Constitutions in Southeast Asia Jaclyn L Neo,Ngoc Son Bui,2019-04-04 This book examines the presence of ethnic, religious, political, and ideational pluralities in Southeast Asian societies and how their respective constitutions respond to these pluralities. Countries covered in this book are Brunei, Cambodia, Indonesia, Laos, Malaysia, Myanmar, the Philippines, Singapore, Thailand, and Vietnam. The chapters examine: first, the range of pluralist constitutional values and ideas embodied in the constitutions; secondly, the pluralist sources of constitutional norms; thirdly, the design of constitutional structures responding to various pluralities; and fourthly, the construction and interpretation of bills of rights in response to existing pluralities. The 'pluralist constitution' is thus one that recognises internal pluralities within society and makes arrangements to accommodate, rather than eliminate, these pluralities.

Dictatorship on Trial Tyrell Haberkorn,2024-06-25 In 2014, after a decade of political turmoil, the National Council for Peace and Order (NCPO) carried out Thailand's 13th coup since the country's transformation from absolute to constitutional monarchy in 1932. Though the NCPO promised to restore the rule of law, justice—long tenuous in Thailand—disappeared entirely. The legal system was used to criminalize the thoughts and actions of democratic dissidents, facilitate extrajudicial violence, and guarantee impunity for the coup and crimes by state officials. Combining legal and historical scholarship and long-term courtroom observation, *Dictatorship on Trial* traces the legal, social, and political impacts of authoritarianism, and foregrounds court decisions as both a history of repression and a site in which to imagine future justice. Organized chronologically across the five years of the NCPO regime, each chapter takes up a different political case and enumerates the ways in which political activists were made vulnerable rather than protected by the state's interpretations of the law, and the mechanisms through which perpetrators evaded accountability. Inspired by feminist legal scholars, the substantive analysis in each chapter is followed by new, rewritten judgments created in collaboration with Thai human rights activists. In plotting these alternative logics, interpretations of evidence, and conclusions, Tyrell Haberkorn outlines what true justice might look

like, and assesses the legal and political transformations necessary to realize it.

The Core Human Rights Treaties and Thailand Vitit Muntarbhorn, 2016-09-27 In this study titled The Core Human Rights Treaties and Thailand, Vitit Muntarbhorn examines the relationship between Thailand and the nine key human rights Conventions, known as the Core Human Rights Treaties, in addition to their Protocols. These agreements cover a range of civil, political, economic, social and cultural issues, in addition to the rights of specific groups. The study offers a mirror for reflection, testing the linkage between international standards and national implementation in a dynamic and challenging context.

Strengthening the Military Family Readiness System for a Changing American Society National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Board on Children, Youth, and Families, Committee on the Well-Being of Military Families, 2019-10-25 The U.S. military has been continuously engaged in foreign conflicts for over two decades. The strains that these deployments, the associated increases in operational tempo, and the general challenges of military life affect not only service members but also the people who depend on them and who support them as they support the nation – their families. Family members provide support to service members while they serve or when they have difficulties; family problems can interfere with the ability of service members to deploy or remain in theater; and family members are central influences on whether members continue to serve. In addition, rising family diversity and complexity will likely increase the difficulty of creating military policies, programs and practices that adequately support families in the performance of military duties. *Strengthening the Military Family Readiness System for a Changing American Society* examines the challenges and opportunities facing military families and what is known about effective strategies for supporting and protecting military children and families, as well as lessons to be learned from these experiences. This report offers recommendations regarding what is needed to strengthen the support system for military families.

Strategy and Command Louis Morton,2015-07-11 For the United States, full involvement in World War II began and ended in the Pacific Ocean. Although the accepted grand strategy of the war was the defeat of Germany first, the sweep of Japanese victory in the weeks and months after Pearl Harbor impelled the United States to move as rapidly as it could to stem the enemy tide of conquest in the Pacific. Shocked as they were by the initial attack, the American people were also united in their determination to defeat Japan, and the Pacific war became peculiarly their own affair. In this great theater it was the United States that ran the war, and had the determining voice in answering questions of strategy and command as they arose. The natural environment made the prosecution of war in the Pacific of necessity an interservice effort, and any real account of it must, as this work does, take into full account the views and actions of the Navy as well as those of the Army and its Air Forces. These are the factors-a predominantly American theater of war covering nearly one-third the globe, and a joint conduct of war by land, sea, and air on the largest scale in American history-that make this volume on the Pacific war of particular significance today. It is the capstone of the eleven volumes published or being published in the Army's World War II series that deal with military operations in the Pacific area, and it is one that should command wide attention from the thoughtful public as well as the military reader in these days of global tension.

The Rice Economy of Asia Randolph Barker,Robert W. Herdt,Beth Rose,1985 The purpose of this book is to present a comprehensive picture of the role of rice in the food and agricultural sectors of Asian nations.

Unrestricted Warfare Liang Qiao,Xiangsui Wang,2002 Three years before the September 11 bombing of the World Trade Center-a Chinese military manual called Unrestricted Warfare touted such an attack-suggesting it would be difficult for the U.S. military to cope with. The events of September 11 were not a random act perpetrated by independent agents. The doctrine of total war outlined in Unrestricted Warfare clearly demonstrates that the People's Republic of China is preparing to confront the United States and our allies by conducting asymmetrical or multidimensional attack on almost every aspect of our social, economic and political life.

Edward the Second Christopher Marlowe,2010-10-15 Depicting with shocking openness the sexual and political violence of its central characters' fates, Edward the Second broke new dramatic ground in English theatre. The play charts the tragic rise and fall of the medieval English monarch Edward the Second, his favourite Piers Gaveston, and their ambitious opponents Queen Isabella and Mortimer Jr., and is an important cultural, as well as dramatic, document of the early modern period. This modernized and fully annotated Broadview Edition is prefaced by a critical but student-oriented introduction and followed by ample appendix material, including extended selections from Marlowe's historical sources, texts bearing on the

play's complex sexual and political dynamics, and excerpts from contemporary poet Michael Drayton's epic rendition of Edward the Second's reign.

Globalizing Torture ,2013 Following the terrorist attacks of September 11, 2001, the Central Intelligence Agency embarked on a highly classified program of secret detention and extraordinary rendition of terrorist suspects. The program was designed to place detainee interrogations beyond the reach of law. Suspected terrorists were seized and secretly flown across national borders to be interrogated by foreign governments that used torture, or by the CIA itself in clandestine 'black sites' using torture techniques. This report is the most comprehensive account yet assembled of the human rights abuses associated with secret detention and extraordinary rendition operations. It details for the first time the number of known victims, and lists the foreign governments that participated in these operations. It shows that responsibility for the abuses lies not only with the United States but with dozens of foreign governments that were complicit. More than 10 years after the 2001 attacks, this report makes it unequivocally clear that the time has come for the United States and its partners to definitively repudiate these illegal practices and secure accountability for the associated human rights abuses.
